UNIVERSITY OF KOTA

SCHEME OF EXAMINATION

AND

COURSES OF STUDY

Session- 2024-25

Faculty of Social Science

M.A./M.Sc. (Geography)

First &Second Semester Examination

UNIVERSITY OF KOTA

MBS Marg, Near Kabir Circle, KOTA (Rajasthan)-324 005

INDIA

M.A./M. Sc. Geography:

The M.A. /M. Sc. Geography is a two years full time course. The course has beenorganized in IV semesters over two years. That means two semesters per year.

A brief note on the Innovation and the Employability -

1. Now a days Geography has become a very useful subject in various competitive examinations including Civil services and Rajasthan Administrative Services.

2. Geography not only deals with the physical economic and social conditions of the World, India, Rajasthan but now its nature has become applied and it is helpful in solving the environmental and urban problems.

3. Geography provides a background for the regional planning in development and help in sustainable development.

4. The modern techniques of Geographical analysis such as Remote Sensing, GIS, GPS etc. are helpful in Resource and Environmental Management and Disaster Management.

5. Geography provide an opportunity of employment in various fields. The important are : Teaching and Research ;Town Planning Departments ; Regional Planning ; Remote Sensing ; Statistical Departments ;Urban / Rural / Agricultural Planning ; Water Resource Departments ; Demographic Study Departments & Administrative Services – Central and State Governments etc.

Eligibility Criteria – As Per University / College / Government Policy

Scheme of Examination:

1.The course shall have 24 or 26 credits in one semester and 100 credits in a complete 4 semester course.However the credits in a course shall be equal in each semester.

2. There shall be fixed 4 theory papers each of 100 marks and one practical paper of 200 marks in each semester comprising both theory & Practical papers. The Total marks for each semester shall be600/650(CBCS) marks.

3. The Total marks of theory papers will be dividedInto 70% external assessment and 30% internal Assessment marks. Hand written/ Typed two assignments/Test for each theory papers of 10 marks each assignment/Test and 10 marks for general performance, attendance etc.

4. There will be no internal assessment in practical papers.

5. Each paper shall divided into five units for question paper framing from examination point of view.

6. The assessment of the student for theory paper shall be divided into two parts in which first part is continuous assessment or internal (30% of maximum marks) and second part is semester assessment or external assessment (70% of maximum marks) for practical papers there will be only one external assessment(100% of maximum marks).

7. Following rules have been recommended for internal assessment:

(a)The internal assessment for each theory paper shall be taken by the teacher concerned in the department during each semester. There will be two/one internal assessment test paper/assignmentor both each 10%/20% weightage.For theory papers in each semester, Each internal assessment test shall be of one hour duration for each semester. Each internal assessment test shall be taken according to academic calendar notified by the university. There will be no internal examination in the practical paper.

(b) A student, who remains absent(defaulter) or fails or wants to improve the marks in the internal assessment , may be permitted to appear in the desired paper(s) (only one time) in the same semester with the permission of the concerned Head of the Department. A defaulter/improvement fee of Rupees 250/- per paper shall be charged from such candidates. Duly forwarded application of such candidates by the teacher concerned shall be submitted to HOD who may permit the candidate to appear in the internal assessment after depositing the defaulter improvement fee. A record of such candidates shall be kept in the Department.

8. Following rules are recommended for Semester Assessment or External Assessment:

(a) The external assessment shall be of three hours duration for each theory paper and five to ten hours duration for practical paper as per the requirement of the subject and courses of practical. The practical examination shall be taken by the panel of at least one external and one internal examiner at the end of each semester.

(b) The syllabus for each theory paper is divided into five independent units and theory question paper will be divided into two sections as mentioned ("NEP-2020 based Curricula and Examination Scheme, University of Kota, Kota 2023")below:

Section –AThere will be one question with 10 parts having two parts from each unit with no internal choice. The weightage of each part is 2 marks hence the total weightage of this section is 20 marks (20x1) .This section will be compulsory in the paper.

Section-BThere will be five questions with one question from each unit with internal choice (may have subdivisions). The weight of each question of 16 marks hence the total weightage of the section is 50 marks (10x5).

09. Minimum pass marks and Rules regarding Determination of result are recommended as follows:

(i)The candidate shall be declared as pass in a semester examination if he/she secure at least 40% marks in each theory paper separately in external & internal examination and assignment assessment50% marks in each practical paper and at least 50% marks in project/dissertation with 50% aggregate marks in that semester(As per policy).

(ii)A candidate declared as fail/absent in one or more papers at any odd semester examination shall be permitted to take admission in the next higher semester (even semester)of the same academic session.

(iii)A candidate may be promoted in the next academic session(odd semester)if he/she has cleared collectively at least 50% of the paper of both semesters of previous academic session with 50% of the aggregate marks .The candidate who does not fulfil the above condition will

remain as an ex-student and will reappear in the due papers along with the next odd/even semester exam.

(iv)If any student who is provisionally admitted in higher odd semester but could not secure prescribed minimum marks in previous semester will be treated as ex-student and his/her admission fee will be carry forwarded to the next odd semester of forth coming academic session.

(v)If a candidate,who is declared as pass, wishes to improve his/her performance in theory papers of previous semester .he/she may re –appear only one time in these paper in next odd/even semester examination.

(vi)Candidate shall not be permitted to re-appear or improve the marks obtain in the external examination of practical/dissertation in any condition.

(vii)If the number of papers prescribed in a semester examination is an odd number. It shall be increased by one for the purpose of reckoning 50% of the papers for considering the student pass/fail.

(viii)A candidate may be given only two additional chances for passing semester thus maximum tenure for completing the two years, postgraduate course will be limited to four years,for three years postgraduate programme up to five years and so on.

10. Classification of successful Candidates after Last semester Examination is recommended as follows:

As Per "NEP-2020 based Curricula and Examination Scheme, University of Kota, Kota 2023"

As per policy, it is proposed to calculate SGPA (Semester Grade Point Average) and CGPA (Cumulative Grade Point Average) as per following grade point calculation as:

Letter Grade	Grade Points	Description	Rank of Marks (%)
O	10	Outstanding	90-100
A+	9	Excellent	80-89.99
A	8	Very Good	70-79.99
B+	7	Good	60-60.99
B	6	Above Average	50-50.99
C	5	Average	45-49.99
P	4	Below Average/ Pass	40-44.99
F	0	Fail	0-39.99
U	0	Unfair Means	--
W	0	Withdrawn	--
Ab	0	Absent	Absent

GEO-101	**Evolution of Geographical Thought-Ancient& Classical**

UNIT – I
Definitions, scope, nature and purpose of Geography,and its relation with other social sciences, Basic Concepts of Geography, Branches of Geography.

UNIT – II
Geographical knowledge in Ancient Times, Cosmogony and Cosmology in Ancient India, Puranic Geography- Deeps, Sea/Oceans, Mountains & Rivers, Geography of Vedic Times.

UNIT – III
Geographical knowledge in Classical Times – Greek Geographers.

UNIT – IV
Contribution of Roman Geographers.

UNIT – V
Dark Age & Contribution of Arab Geographers.

GEO-102	Advanced Economic Geography

Unit - I

Nature and Scope of Economic Geography, approaches and recent trends in economic geography, location of economic activities and spatial organization of economies. Simple model and spatial structure of economy.

Unit – II

Classification of economies, sectors of economy: primary, secondary and tertiary, Transportation Spatial variation in transport and production costs: labour, capital, Decision making process technical knowledge, location impact.

Unit – III

Types of agriculture: Subsistence: Tropical plantation,Mixed farming,Commercial grain farming and Mediterranean. Production and distribution of Wheat, Rice, Cotton, Sugarcane, Tea and Coffee in the world.

Unit – IV

Theories of Agricultural Location-Von Thunen, Sinclair and Jonasson.Theories of Industrial Location – Alfred Weber, Losch, Walter Isard and Smith.

Unit – V

Agricultural and Industrial Regions of the World pattern of Rail and water transportation including inland water transportation.

GEO-103	Advanced Geomorphology

UNIT-1

Geomorphology: Development of geomorphology, Fundamental concepts, Factors, processes and theories of landform development: Endogenetic and Exogenetic forces. Interior of the earth, Magnetism of earth, Paleomagnetism.

UNIT-II

Isostasy, Continental Drift, Sea floor spreading and Plate Tectonics, Denudation process: Weathering and Erosion, mass movements, Geosynclines, Earth movements:-Folds and Faults, Orogenesis:- types of mountains, major phases of mountain building, theories of mountain building.

UNIT-III

Concept of Geomorphic Cycle:- Davis and Penck , Rejuvenation and polycyclic landforms Landforms associated with fluvial, glacial, arid, coastal, Karst and peri-glacial topography. Volcano:- types, world distribution and volcanic landforms. Earthquake:-cause, effect and world distribution.

UNIT-IV

Concept of slope:- Introduction,Elements of slope, Classification of slopes, approaches to study of slope. Models of slope development. Peneplain and panplain. Development of river valleys, Channel morphology, Morphometry, drainage system and pattern.

UNIT – V

Climatic Geomorphology and Morphogenetic regions. Regional Geomorphology, Climate change and quarternary geomorphology, Environmental, Anthropogenic and Applied Geomorphology.

GEO-104	Advanced Geography of Environment

UNIT – I

Concept of environment, Nature and scope of the Geography of environment, Concept of ecology , eco-system-definition. Biomes, Components of environment and Ecology, Ecological Pyramids.

UNIT – II

Energy flow in eco-system, Productivity in eco-system, Food Chain- Food Web,Human impact on natural environment Types of eco-system.

UNIT – III

Man-environment relationships, Degradation and conservation of Environment, Development vis-a-vis ecological crisis. Perception of environment and its quality.

UNIT – IV

Environmental Pollution – Water, Air, Noise, Soil and Radio-activity, causes, impact and measures of control with Indian examples. Population and ecological crisis.

UNIT – V

Global Environmental Issues : Climate Change - Ozone depletion, Green House effect and Global warming, Desertification, Biodiversity.

Books Recommended :

GEO-105	Geography Practical

Surveying / laboratory Work: ***Total 200 Marks***

1. Laboratory work test	(3 hrs duration)	80 Marks
2. Record work & viva-voce	(50+20) 1½ hrs	70 Marks
3. Survey Project Report comp& viva voce	(30+20) 1½ hrs	50 Marks

Note: **16 hrs of teaching- practical be provided to students per week .**

UNIT – I

Definition , Nature and scope of cartography , The Art and Science of Cartography, Maps: History of Maps,Indian contribution to cartography. Materials, techniques, Types and Preparation of Maps.

UNIT – II

Scales; Types, Representation of Scales ,Enlargement, Reduction of Maps, Data: Types: Primary-Secondary , representation of Bar Diagram, histograms, Frequency Polygon, Pie/Wheel Diagram.

UNIT – III

Geographical Maps-Diagrams : Isopleths, choropleth, chorochromatic , Population- Dot Map , Population Pyramid, Sten-de-Geers and Stilgen-Baurs-Method.

UNIT – IV

Three dimensional diagrams of economic and social data, Block Pile, Sphere ,Cube, Graphs: Simple Line Graph ,Polygraph, Climatograph, Hythergraph, Taylor's/Foster's Climograph.

UNIT – V

Survey Project Report: Student will prepare a project report based on geographical ,socio-economic and environmental aspects of his/her residential area with sample survey of 10 houses under the direction of the faculty member independently of 25 pages. Batch of ten students be formed and separate topic/sub-topic should be given to each batch.

Note: Record work will comprise of a minimum of 25 exercises drawn on one fourth of a full drawing sheet File with analysis/ Explanations.

Books Recommended :

GEO-201	Evolution of Geographical Thought- Growth of Modern Geography

UNIT – I

Founders of modern Geography-Humboldt, Ritter,Ratzel,Richthofen, Hettner, Contribution of Vidal-de-la-Blache,Brunhes, Sample, Huntington.

UNIT – II

Contribution of British and American Geographers. Growth Geographical Study in India.

UNIT – III

Dichotomies in Geography : Physical and Human Geography, Determinism and Possibalism, Regional and Systematic Geography, Qualitative and Quantitative Geography, Theoretical and Applied Geography.

UNIT – IV

Changing paradigms in Geography ; Positivism, Behaviourism, Humanistic geography, Functionalism and Idealism in Geography. Concept of cultural landscape.

UNIT – V

Nature of Modern Geography, Branches of Geography –their nature and importance. its place in natural and social science. Future of Geography.

Books Recommended :

12.जैन, एस.एम. : भौगोलिकचिन्तन व विधि तंत्र, साहित्य भवन, आगरा।

GEO-202	Resource Geography

UNIT – I

Scope, approaches and trends in resource geography; resources: concepts and classification Distribution, production and problems.

UNIT – II

Use, production and conservation of resources: iron ore and manganese, Conventional and Non-conventional Sources of Energy ,production and problems of conservation of coal, petroleum, Hydroelectricity, Solar and nuclear resources ,World Energy Crisis.

UNIT – III

Forest and water resources: distribution, utility, problems and conservation with spatial reference to India and Rajasthan.

UNIT – IV

Distribution, density and growth of human resources , Population-resource equilibrium, Problems of resource utilization and conservation of resources, Population-Resource regions of world.

UNIT – V

Locational analysis and spatial distribution of Iron and Steel, Cotton textile, Chemical, Paper and pulp industries , Development of marketing systems in the world and WTO.

Books Recommended :

GEO-203	Advanced Climatology & Oceanography

UNIT – I
Climatology : Composition and Structure of the Atmosphere, Insolation ; Heat budget of the earth, Distribution of temperature- vertical and horizontal, Atmospheric pressure and general circulation of winds, Monsoons and jet streams.

UNIT – II
Stability and instability of the atmosphere: Air-masses, Fronts, Temperate and Tropical cyclones,Types and distribution of precipitation.

UNIT – III
Classification of world climates :Kopen's and Thornthwaite's schemes, Hydrological Cycle, Climate change and Global warming.

UNIT – IV
Oceanography : Distribution of land and water, Origin of ocean basins- Major features of ocean basins, Study of Ocean Bottom relief of Indian, Atlantic and Pacific Oceans.

UNIT – V
Ocean deposits: Coral reefs, Temperature and Salinity of the Oceans,Ocean currents, waves and Tides, Impact of Humans on the marine environment, Marine Resources.

Books Recommended :
1. Anikouchine, W. A. and R. W. Sternberg, The World Oceans: An Introduction to Oceanography, Englewood Cliffs, N.J. 1973
2. Barry, R. G. and R. J. Chorley, Atmosphere, Weather and Climate, Routledge, 1998
3. Critchfield, H., General Climatology, Prentice-Hall, New York, 1 975

GEO-204	Environment and Sustainable Development

UNIT – I

Growing environmental problems of the Modern World: Ecological crisis, Energy crisis, Desertification, Deforestation, Climate change, Decline of Bio-diversity, Ozone Depletion. Need for environmental protection.

UNIT – II

Environmental Management–Approaches, Management of forest, soil, wildlife, energy and mineral resources. Types of Hazards and Disasters. Causes, effects and management of Earthquakes, Tsunami, Floods, Droughts, Tropical cyclones.

UNIT – III

Impact of Industrialization. Urbanization and GlobalizationonEnvironment, Environmental Impact Assessment, Eco-Auditing. Conservation of biodiversity.

UNIT – IV

Environment: Perception, Ethics and Quality. Environment Awareness and Education, Environmental policies and programmes (international and national) , Environmental problems, planning and legislation in India.

UNIT – V

Sustainable development: Concept, importance and requirement. Governance, Geo-Politics. Role of UN agencies and International organizations in environmental protection and sustainable development.

Books Recommended :

1. Batel, B. (Ed.) – Management of Environment, Wiby Eastern Ltd., New Delhi, 1980.
2. DeshBandhu (Ed.) – Environmental Management, Indian Environment Society, New Delhi.
3. Singh & Singh (Ed.) – Geography of Environment Concept, New Delhi.
4. Saxena, H.M. – Environmental Geography, Rawat Pub., Jaipur, 2019.
5. Savinder Singh – Geography of Environment, Allahabad.

6 Murdock, W. (Ed.)- Environment Resources, Pollution and Society, Sin over Association Inc.
7. Gupta &Gurjar - Sustainable Development, Rawat Pub., Jaipur.
8. Khan, M.Z.A.&dGangwaleSonal : Global Climate change, Rawat Publications, Jaipur, 2011
9. Strahler, A.N. – Geography and Man's Environment, John, Willey.
10. Khan, M.Z.A. & S.K. Agarwal – Environmental Geography, APH Publishing House, New Delhi,2004.
11. Centre for Science – The State of Indian Environment : A Citizen's Report 1982, Environment1985, New Delhi.
12. Sharma B.L. & Puja Puar : Global Environmental Challenges, Rohini Books, Jaipur.
13.सविन्द्र सिंह –पर्यावरणभूगोल, इलाहाबाद।
14. वी.के. श्रीवास्तव : पर्यावरणीय, भूगोल एवंपारिस्थितिकीविकास, वसुन्धरा, गोरखपुर।
15. एच.एम. सक्सैना–पर्यावरण एवंपरिस्थितिकीभूगोल, राज. हिन्दीग्रन्थअकादमी, जयपुर।
16. सक्सैना–पर्यावरणभूगोल, रावतपब्लिकेशन, जयपुर।

GEO-205	**Geography Practical**

Laboratory Work: *Total* ***200 Marks***

1. Laboratory work test	(3 hrs duration),	80 Marks
2. Record work & viva-voce (50+20)	1½ hrs,	70 Marks
3. Survey Project report camp & viva - voce (30+20)	1½ hrs	50 Marks

UNIT – I

Map Projection and their classification –(Merits and Demerits)
Construction and characteristics of projections (Mathematical constructions)
Conical Projections :
(a) Equal Area with one Standard Parallel (Lambert's Projection)
(b) Equal Area with two Standard Parallel (Albert's Projection)
(c) Bonne's
(d) Polyconic
Cylindrical Projections :
(a) Cylindrical Equal Area
(b) Mercator's
(c) Gall's stereographic

UNIT – II

Zenithal Projection's
(a) Gnomonic Polar Case &. Eq-case
(b) Stereographic Polar Case &. Eq-case
(c) Orthographic Polar Case &. Eq-case
(d) Equal Area Polar Case &. Eq-case
(e) Equidistant Polar Case &. Eq-case
Conventional Projections :
(a) Sinusoidal
(b) Mollweide

UNIT – III

Scheme of symbols, Conventional Symbols, Weather Symbols, Interpretation of Weather Maps and Indian Weather Report. Space –Based on Weather information.

UNIT – IV

Computation of Mean, Median and Mode, Deviations : Standard Deviation and Mean Deviation, Correlation, Theoretical Basis of Nearest Neighbour Analysis.

UNIT – V

Survey Project Report : Report should be prepared for a topic related to any Local orregional problem. A report should be prepared in typed form minimum 25 pages with the help of

maps and diagrams. Batch of ten students be formed and separate topic/sub-topic should be given to each batch.

Note: Record work will comprise of a minimum of 25 exercises drawn on one fourth of a full drawing sheet File with analysis/ Explanations.

Books Recommended :

1. Arthur G., Advance Practical Geography, Heinemann
2. Campbell, J., Introductory Cartography, Prentice Hall Inc., New York
3. Govt. of Rajasthan, District Census Handbooks, latest as well as of previous Census
4. Keates, J. S., Cartographic Design and Production, Longman, London
5. Loxton, J., Practical Map Production, John Wiley & Sons, New York
6. Mishra, R. P. and A. Ramesh, Fundamentals of Cartography, Concept Publishers, New Delhi
7. Monkhouse, F. J. and H. R. Wilkinson, Maps and Diagrams, Methuen & Co., London
8. Raisz, E., General Cartography , McGraw Hill Book Co., New York
9. Robinson, A. H., Elements of Cartography, Chapman & Hall
10. Sing, R. L., Elements of Practical Geography, Kalyani Publishing
11. Singh, R. N., Map Work and Practical Geography, Central Book Depo

UNIVERSITY OF KOTA

PAPER OF STUDY

UNDER CBCS

Session- 2023-24

Faculty of Social Sciences

M.A./M.Sc. Geography

Second & Third Semester Examination

UNIVERSITY OF KOTA

MBS Marg, Near Kabir Circle, KOTA (Rajasthan)-324 005

INDIA

GEO-CBCS-206	**Environmental Studies (A)**	**Cradit:02**

UNIT – I

Concept of environment, Nature and scope of the Environmental Studies, Approaches to Environmental studies, Concept of Ecology

UNIT – II

Eco-system: definition, Structure and function, Major Types; Forest, Grassland, Desert, Aquatic, Components of environment,

UNIT – III

Biodiversity, Energy flow in Eco-System, Productivity in eco-system,Ecological Pyramids.

UNIT – IV

Food Chain, Food Web,Man-environment relationships.

UNIT – V

Degradation and conservation of Environment, Development vis-a-vis ecological crisis.Human impact on natural environment.

Books Recommended :

1. Batel, B. (Ed.) – Management of Environment, Wiby Eastern Ltd., New Delhi,.
2. Desh Bandhu (Ed.) – Environmental Management, Indian Environment Society, New Delhi.
3. Singh & Singh (Ed.) – Geography of Environment Concept, New Delhi.
4. Saxena, H.M. – Environmental Geography, Rawat Pub., Jaipur.
5. Savinder Singh – Geography of Environment, Allahabad.
6 Murdock, W. (Ed.)- Environment Resources, Pollution and Society, Sin over Association Inc.
7. Gupta & Gurjar - Sustainable Development, Rawat Pub., Jaipur.
8. Strahler, A.N. – Geography and Man's Environment, John, Willey.
9. Khan, M.Z.A. & S.K. Agarwal – Environmental Geography, APH Publishing House, New Delhi.
10.Centre for Science :The State of Indian Environment : A Citizen's Report 1982, Environment 1985, New Delhi.
11 सविन्द्र सिंह – पर्यावरण भूगोल, इलाहाबाद।
12.वी.के. श्रीवास्तव : पर्यावरणीय, भूगोल एवं पारिस्थितिकी विकास, वसुन्धरा, गोरखपुर।
13.एच.एम. सक्सैना – पर्यावरण एवं परिस्थितिकी भूगोल, राज. हिन्दी ग्रन्थ अकादमी, जयपुर।
14. सक्सैना – पर्यावरण भूगोल, रावत पब्लिकेशन, जयपुर ।

GEO-CBCS-306	**Environmental Studies (B)** **Cradit:02**

UNIT – I
Natural Resources, Degradation Of Environment, Conservation ofEnvironment and Natural Resources.

UNIT – II
Environmental Pollution : Water Pollution, AirPollution, NoisePollution and Soil/Land Pollution, causes, impact and measures of control with Indian examples..

UNIT – III
Global Environmental Issues : Climate Change, Ozone depletion, Green House effect , Global Warming, Desertification. Concept Of Disaster Management

UNIT – IV
Population ; Population Explosion and its impact on environment, Perception of Environment and its Quality.

UNIT – V
National & State Environmental policies with reference to Rajasthan, Concept of Sustainable Development.

Books Recommended :
1. Batel, B. (Ed.) – Management of Environment, Wiby Eastern Ltd., New Delhi,.
2. Desh Bandhu (Ed.) – Environmental Management, Indian Environment Society, New Delhi.
3. Singh & Singh (Ed.) – Geography of Environment Concept, New Delhi.
4. Saxena, H.M. – Environmental Geography, Rawat Pub., Jaipur, 2019.
