Rules & Regulations

Objectives of the Course:

The major objectives of M. A. Economics course are:

- To impart the knowledge and develop understanding of the economy.
- To equip economics professionals with theories and provide necessary analytical tools and intellectual trainings in major areas of economics with its applications.
- To focus on the emerging area of Environmental Economics.

Scopes of the Course:

Coming from different backgrounds, the students who would complete this course have multi-dimensional scopes:

- Students may find their professional career in academic institutions particularly for teaching in Economics, Growth & Development and Agriculture Sector.
- Civil and allied administrative services.
- The corporate sector particularly in research and development field.
- In research consultancy firms.

Duration of the Course:

The course for the degree of Master of Arts in Economics shall consist of two academic years divided in to four equal semesters. Each semester consist of minimum 120 working days.

Eligibility for Admission in M. A. First Semester:

A candidate who has passed any one of the following degrees from any University recognized by the UGC shall be permitted to take admission in M. A. First Semester Economics to award M. A. degree in Economics from this University after completion of a course of study of two academic years divided in the four semester scheme of examination:

- Undergraduate Degree under 10+2+3 pattern with any discipline or
- Four year undergraduate (Hons. Course) degree in any discipline or
- Integrated undergraduate degree as B. A.-B. Ed. in any discipline.
- Four year undergraduate Degree in Engineering (B. Tech. /B. E.).

Eligibility for Admission in M. A. Third Semester:

A candidate may be promoted in the next academic session (odd semester *i.e.* III semester) if he/she has cleared collectively at least 50% of the papers of both semesters of previous academic session with 50% of the aggregate marks. The candidate who does not fulfill the above condition will remain as an ex-student and will re-appear in the due papers along with next odd/even semester examinations.

A candidate who has passed B. Ed. examination as a regular course of study after completing first and second semester examinations from this University shall be eligible to take admission in third semester examination as a regular candidate.

Structure of the Programme:

The Master of Arts in Economics programme will consist of core and advanced courses of theory which are compulsory for students.

Course Number, Course Code/ID and Nomenclature:

Number of the course has been given in the Arabic number as Paper-1.1, Paper-1.2, and Paper-1.3 and so on. In the Paper-1.2, 1 represents the semester number and 2 represent the paper number.

To give a code to a particular course, following sequence has been adopted:

“Abbreviation of the programme in upper case + nth number of year of study + nth number of semester of the programme + course number in Arabic number”

According to the above sequence, code of paper-IV of the first semester of postgraduate Economics shall be as “ECO-514”. It is noted that the 5 represents here the fifth year of study because it is considered that the student has completed four years of study during his / her undergraduate programme e.g. B. A. pass course with three or B. A. Hons course with three or four years B. A.-B. Ed. etc. with four years. Therefore, the figure 5 represents the fifth year of study.

Nomenclature of the particular course has been given according to the nature or type of contents included in the Unit-I to Unit-V of course of study.

Maximum Marks:

Maximum marks of paper will be decided on the basis of their contact hours per week. One teaching hour per week will carry 25 maximum marks and therefore, four teaching hours per week will carry 100 maximum marks for each paper / course.

Attendance:

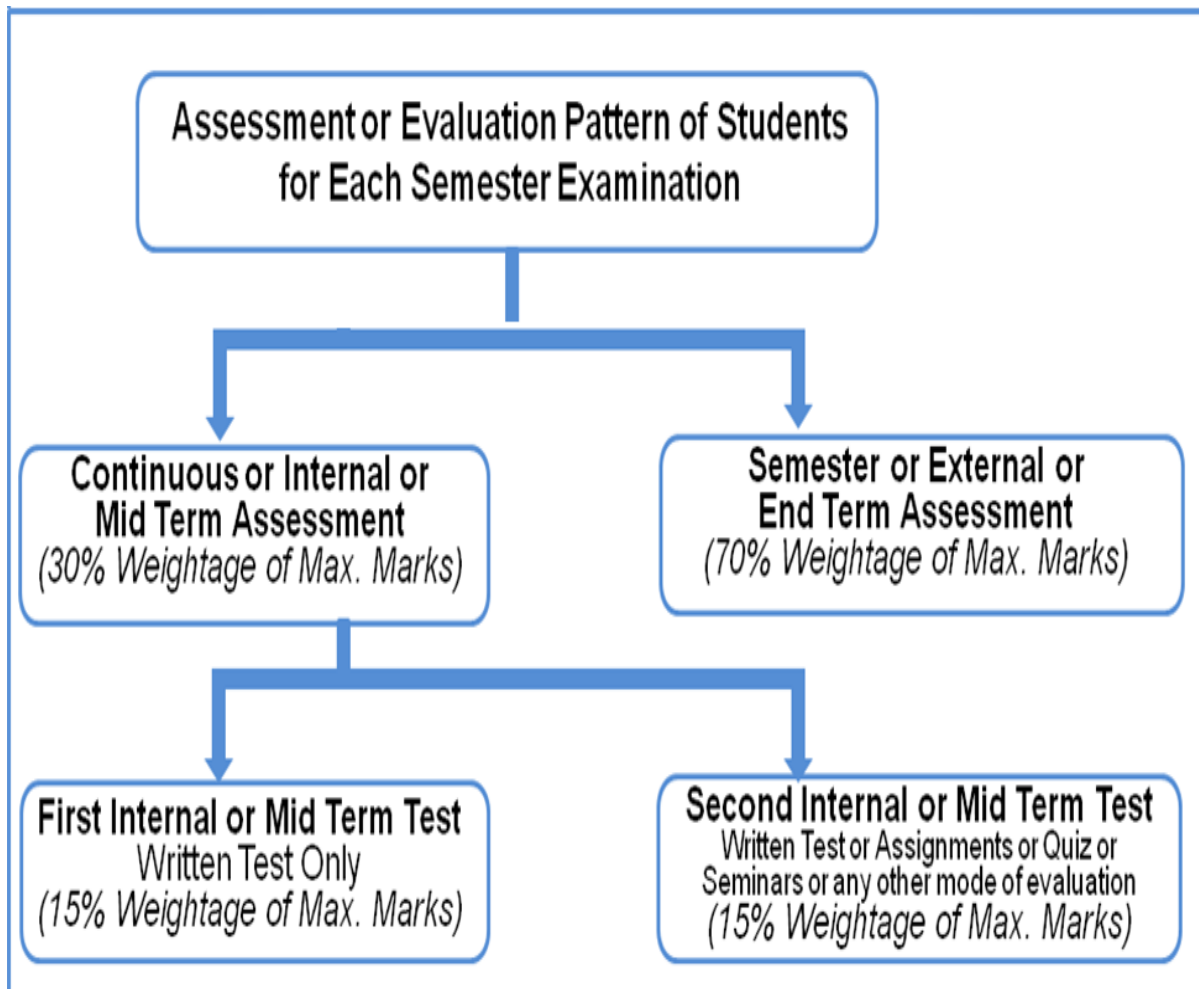

Every teaching faculty, handling a course, shall be responsible for the maintenance of Attendance Register for candidates who have registered for the course. The teacher of the course must intimate the Head of the Department at least seven calendar days before the last instruction day in the semester about the attendance particulars of all students. Each student should earn 75% attendance in the courses of the particular semester failing which he or she will not be permitted to sit in the End-Semester Examinations. However, it shall be open to the authorities to grant exemption to a candidate who has failed to obtain the prescribed 75% attendance for valid reasons and such exemptions should not under any circumstance be granted for attendance below 65%.

Teaching Methodologies:

The classroom teaching would be through conventional lectures or use of OHP or power point presentations (PPT). The lecture would be such that the student should participate actively in the discussion. Student seminars would be conducted and scientific discussions would be arranged to improve their communicative skill. In the laboratory, instruction would be given for the experiments followed by demonstration and finally the students have to do the experiments individually. For the students of slow learners, special attention would be given.

Assessment Pattern:

The assessment of the student shall be divided into two parts in which first part is continuous assessment or internal assessment (30% weightage of the maximum marks) and second part is semester assessment or external assessment (70% weightage of the maximum marks). Assessment pattern and distribution of maximum marks is summarized as given below:

(i) Continuous Assessment or Internal or Mid Term Assessment:

- (a) The continuous or internal or mid-term assessment (30% weightage of the maximum marks) for each theory paper shall be taken by the faculty members in the Department during each semester. There will be two internal assessment tests (*i.e.* First Internal Assessment Test or First Mid Term Test and Second Internal Assessment Test or Second Mid Term Test) each of 15% weightage for each theory paper. Each internal assessment test shall be of one hour duration for theory paper and shall be taken according to academic calendar which will be notified by the Department / University.
- (b) A student who remains absent (defaulter) or fails or wants to improve the marks in the internal assessment may be permitted to appear in the desired paper(s) (only one time) in the same semester with the permission of the concerned Head of the Department. A defaulter / improvement fee of Rupees 250/- per paper shall be taken from such candidates. Duly forwarded application of such candidates by the teacher concerned shall be submitted to HOD who may permit the candidate to appear in the internal assessment after production of satisfactory evidence about the reason of his/her absence in the test(s) and deposition of the defaulter / improvement fee. A record of such candidates shall be kept in the Department.

- (c) Regular attendance of the student shall be considered in the internal assessment. If the attendance / regularity factor is similar for all the students, then it may be merged with the weightage of second internal assessment test (class test / home assignment / quiz, seminar, *etc.*).
- (d) Paper wise consolidated marks for each theory paper and dissertation / seminar (*i.e.* total marks obtained during various modes of internal assessment) obtained by the students (out of the 30% weightage of the maximum marks of the paper) shall be forwarded by the Head of the Department (in two copies) to the Controller of Examination of the University within a week from the date of last internal assessment test for incorporation in the tabulation register.
- (e) The consolidated marks obtained by the students be also made known to them before being communicated by the Head of the Department concerned to the University for final incorporation in the tabulation register. If any discrepancies are discovered or pointed out by the students, the same shall be looked into by the concerned faculty member and corrections made wherever necessary. The decision of the Head of the Department before the communication of marks to the University shall be final. No corrections shall be made in the internal assessment marks after the declaration of the result by the University.
- (f) Consolidated marks communicated to the University shall be in whole number and not in fraction. Marks awarded for the various internal assessments in each paper shall be added up and then round off to the next whole to avoid any fraction.
- (g) All test copies and other material related to the internal assessment shall also be sent to the Controller of Examination of the University to keep in record as per the University guidelines.
- (h) The Head of the Department concerned shall be responsible for proper conduct of internal assessment tests and for communication of the consolidated marks to the University within the prescribed time.
- (i) The Head of the Department shall keep a record of the marks and also notify the same to the candidates immediately so that if any candidate is not satisfied with the award in any test or seasonal work, he should represent the matter to the Head of the Department.

(ii) Semester Assessment or External or End Term Assessment:

- (a) The semester or external or end-term assessment (70% weight of the maximum marks) shall be three hours duration to each theory paper and twelve hours duration spread over two days (6 hours per day) for each practical paper and shall be taken by the University at the end of each semester.
- (b) The syllabus for each theory paper is divided into five independent units and question paper for each theory will be divided into three sections as mentioned below:
 - **Section-A** will carry 10 marks with 01 compulsory question comprising 10 short answer type questions (maximum 20 words answer) taking two questions from each unit. Each question shall be of one mark.
 - **Section-B** will carry 25 marks with equally divided into five long answer type questions (answer about in 250 words). Paper setter shall be advised to set two questions from each unit and students are instructed to attempt five questions by selecting one question from each unit.
 - **Section-C** will carry 35 marks with five long answer type questions comprising one compulsory question of 15 marks and four questions of 10 marks each. Students are instructed to attempt total three questions with one compulsory question (answer about in 500 words) and any two more questions (answer about in 400 words) out of remaining four questions. Paper setter shall be advised to design question paper covering from all five units.

Question Paper Pattern:

(A) Continuous or Internal or Mid Term Assessment:

30% weightage of Maximum Marks (30 Marks out of 100 Maximum Marks)

(i) First Continuous or Internal or Mid Term Assessment:

Minimum Pass Marks and Rules regarding Determination of Results:

Each semester shall be regarded as a unit for working out the result of the candidates. The result of each semester examination shall be worked out separately (even if the candidate has appeared at the paper(s) of the lower semester examination alongwith the papers of higher semester examination) in accordance with the following conditions:

- (i) A candidate, for a semester examination, shall be offered all the papers prescribed for that semester examination and besides he/she also shall be offered paper(s) not cleared by him/her at any of the lower semester examination subject to the limitation that the number of un-cleared papers of the lower semester examinations shall not exceed the total number of the papers prescribed for any one semester.
- (ii) The candidate shall be declared to have passed the examination, if the candidate secures at least 40% marks in each theory paper separately in continuous or internal or mid-term examination & semester or external or end-term examination and 50% marks in each practical / project / dissertation / seminar with 50% aggregate marks of the maximum marks prescribed for each semester examination. There is no minimum pass marks for the practical record / notebook. However, submission of a practical record / notebook is a mandatory during the practical examination. The candidate should compulsorily attend viva-voce / presentation examination to secure pass in practical / project / dissertation / seminar.
- (iii) A candidate, who has been declared as failed/absent in one or more theory paper(s) at any odd semester examination shall be permitted to join the courses of study for the next higher semester *i.e.* permitted to join the course of second semester after first semester examinations, permitted to join the course of fourth semester after third semester examination, permitted to join the course of sixth semester after fifth semester examinations and so on and eligible to re-appear in that paper(s) as due paper(s) along with next higher semester (next year) examinations provided that he/she must have cleared at least 50% of the papers (including practical / project / dissertation / seminar as one paper) collectively prescribed for the first and second semester examinations taken together for promotion to the third semester examination.

- (iv) A candidate may be promoted in the next semester (odd semester) if he/she has cleared collectively at least 50% of the papers of both semesters of previous academic session with 50% of the aggregate marks. The candidate who does not fulfill the this condition will remain in the same semester as an ex-student and will re-appear in the due papers examination along with next odd/even semester examinations.
- (v) If any student who is provisionally admitted in higher odd semester but could not secure prescribed minimum marks in previous semesters will be treated as ex-student and his/her admission fee will be carry forwarded to the next odd semester of forthcoming academic session.
- (vi) A candidate declared as failed in that particular paper he/she can re-appear for that paper in the next year examination as a due paper. However, the internal marks shall be carried forward for the total marks of the due examination.
- (vii) A candidate may be given only two additional chances for passing the semester thus maximum tenure for completing the two years' postgraduate course will be limited to four years, for three years postgraduate programme up to five years and so on.
- (viii) If the number of papers prescribed at the first and second or third and fourth semester examination is an odd number, it shall be increased by one for the purpose of reckoning 50% of the papers.
- (ix) A candidate who passes in 50% or more papers of the first and second semester examination, and thereby becomes eligible for admission to the third semester examination, but chooses not to do so and desires to appear in the remaining papers of first and second semester examination only or to re-appear in all the prescribed papers and practical/dissertation/seminar of the M. A. first and second semester examination will be permitted to do so on the condition that in the latter case his previous performance will be treated as cancelled.
- (x) If a candidate, who has been promoted to the next semester and wishes to improve his / her performance in the theory paper(s) of previous semester, can be permitted to do so in case of the theory papers only, not in practical / project / dissertation / seminar, belonging to the immediately preceding semester only for one time in these papers in next odd/even semester examinations. In such a case, he/she shall have to appear in these papers alongwith the papers of his/her own semester.
- (xi) A candidate shall be declared as passed after the result of the fourth semester examination, if he/she cleared all papers of the all the four semesters and secure minimum 40% of the aggregate marks of the maximum marks in theory papers and 50% of the aggregate marks of the maximum marks for practical / dissertation / presentation / seminar prescribed for four semesters Master's programme.
- (xii) In the case of an ex-student, the marks secured by him/her at his/her last examination as a regular candidate shall be taken into account except in cases where a candidate is re-appearing at the examination as a regular student and in that event he/she shall have to repeat the internal assessment test which will be finally accounted for working out his result.
- (xiii) A candidate who has failed at the M. A. third and fourth semester examination but has passed in at least 50% of the papers prescribed for the examination shall be exempted from re-appearing in a subsequent year in the papers in which he/she has passed.

- (xiv) If a candidate clears any paper(s) prescribed at the first and second semester (previous) and/or third and fourth semester (final) examination after a continuous period of three years, then for the purpose of working out his/her division, only the minimum pass marks shall be taken into account in respect of such paper(s) as are cleared after the aforesaid period provided that in case where a candidate requires more than 40% marks in order to reach the requisite minimum aggregate, as many marks out of those secured by him/her will be taken in to account as would enable him/her to make up the deficiency in the requisite minimum aggregate.

- (xv) In case the candidate is not able to clear his/her due paper(s) in the stipulated period as mentioned above (continuous period of three years), he/she may be given last one mercy attempt to clear due paper(s) subjected to approval of the Vice Chancellor or Board of Management.

- (xvi) The grace marks scheme shall be applicable as per University norms.

Classification of Successful Candidates:

The classification of successful candidates after last semester examination shall be as:

Description of Marks Obtained	Division / Result
<ul style="list-style-type: none"> • 80% and above marks in a paper. 	Distinction in that paper.
<ul style="list-style-type: none"> • A candidate who has secured aggregate 60% and above marks 	First Division
<ul style="list-style-type: none"> • A candidate who has secured aggregate 50% and above but less than 60% marks 	Second Division

Candidates who pass all the examinations prescribed for the course in the first instance and within a period two academic years in four semesters from the year / semester of admission to the course only are eligible for University Ranking. A candidate is deemed to have secured first rank provided he/she

- (i) Should have passed all the papers in first attempt itself.

- (ii) Should have secured the highest marks in the whole examination of the programme / course, or should have secured the highest cumulative grade point average (CGPA).

..... X X X

Semester –I

Compulsory Core Courses

Paper- 1.1: ECO-511: Microeconomics Theory -I

Contact Hours/Week	: 04 Hours	Maximum Marks	: 100 Marks
Duration of Examination	: 03 Hours	Continuous Assessment	: 30 Marks
		Semester Assessment	: 70 Marks

Note: The syllabus is divided into five independent units and question paper will be divided into three sections:

- **Section-A** will carry 10 marks with 01 compulsory question comprising 10 short answer type questions (maximum 20 words answer) taking two questions from each unit. Each question shall be of one mark.
- **Section-B** will carry 25 marks with equally divided into five long answer type questions (answer about in 250 words). Paper setter shall be advised to set two questions from each unit and students are instructed to attempt five questions by selecting one question from each unit.
- **Section-C** will carry 35 marks with five long answer type questions comprising one compulsory question of 15 marks and four questions of 10 marks each. Students are instructed to attempt total three questions with one compulsory question (answer about in 500 words) and any two more questions (answer about in 400 words) out of remaining four questions. Paper setter shall be advised to design question paper covering from all five units.

Note: Contents of each unit may be completed into 15-18 lectures or contact hours which also include revisions, seminars, internal assessments, etc.

Unit- I: Consumer Behavior-I : **15-18 L**
Consumer choice: Utility function and indifference curve analysis- Bads, Neutrals, Optimal choice, Corner point solutions, Price, Income and Substitution effects, Engle curves, Slutsky theorem and Derivation of demand curves. Consumer equilibrium.

Unit-II: Consumer Behavior-I I: **15-18 L**
Consumer surplus. Elasticity of demand- Laffer curve. Network externalities– Bandwagon effect, Snob effect, Veblen effect, Revealed preference theory. Choice under risk and uncertainty.

Unit- III: Firms Behavior-I: **15-18 L**
Production function: Short and long run. Law of returns and Returns to scale, Ridge lines, Expansion path. Producer equilibrium. Forms of production function: Cobb- Douglas, Fixed coefficient and CES. Elasticity of technical substitution, Capital and labor deepening technical progress through Iso-quants.

Unit- IV: Firms Behavior-II: **15-18 L**
Concept of cost :Short and long run cost curves. Dynamic changes in costs – Learning curve. Modern theory of cost curves. Concept of revenue, Revenue curves under different market structures.

Unit- V: Price Determination: **15-18 L**
Pricing under different market structures: Perfect competition. The efficiency of a competitive market. Price supports. Monopoly. Social cost of monopoly; Power of monopoly; International price discrimination and Peak – load pricing. Two-part tariff. Monopolistic competition. Bilateral monopoly.

Paper- 1.2: ECO-512: Macroeconomics Theory -I

Contact Hours/Week	: 04 Hours	Maximum Marks	: 100 Marks
Duration of Examination	: 03 Hours	Continuous Assessment	: 30 Marks
		Semester Assessment	: 70 Marks

Note: The syllabus is divided into five independent units and question paper will be divided into three sections:

- **Section-A** will carry 10 marks with 01 compulsory question comprising 10 short answer type questions (maximum 20 words answer) taking two questions from each unit. Each question shall be of one mark.
- **Section-B** will carry 25 marks with equally divided into five long answer type questions (answer about in 250 words). Paper setter shall be advised to set two questions from each unit and students are instructed to attempt five questions by selecting one question from each unit.
- **Section-C** will carry 35 marks with five long answer type questions comprising one compulsory question of 15 marks and four questions of 10 marks each. Students are instructed to attempt total three questions with one compulsory question (answer about in 500 words) and any two more questions (answer about in 400 words) out of remaining four questions. Paper setter shall be advised to design question paper covering from all five units.

Note: Contents of each unit may be completed into 15-18 lectures or contact hours which also include revisions, seminars, internal assessments, etc.

Unit-I: Introduction:

15-18 L

The origin and development of macroeconomics – Classical, Keynes, New classical and Modern views; Macroeconomic variables (e.g., national income, employment, saving, investment, price level, wages, interest rate), Real and nominal quantities, Stock and flow variables and their inter- relationship, Difference between micro and macroeconomics.

Unit-II: National Income:

15-18 L

National income- Concepts, Components, Measurement, Inter- relationship between three measures of national income; Measurement of economic welfare. Circular flow of income in two, three and four sector economy.

Unit-III: Consumption & Investment Function:

15-18 L

Consumption function – Determinants, Consumption function hypotheses: Absolute, Relative, Permanent income hypotheses and Life cycle hypothesis; Investment function- Neo-classical theory of investment , Stock market and Tobin’s Q-ratio and Neo – Keynesian theory of investment ; Theories of accelerator.

Unit- IV: Theory of Money Demand:

15-18 L

Classical , Keynesian, and Post Keynesian theories of demand for money- Inventory theory of Baumol and Portfolio balance theory of tobin; Restatement of quantity theory of money by Milton Friedmanand, Patinkin’s Theory for money demand.

Unit-V: Theory of Money Supply:

15-18 L

Supply of money- Measurement in view of India, Components, Determinants, High- powered money & money multiplier and Theories of money- supply.

Paper- 1.3: ECO-513: Mathematical Methods for Economics

Contact Hours/Week	: 04 Hours	Maximum Marks	: 100 Marks
Duration of Examination	: 03 Hours	Continuous Assessment	: 30 Marks
		Semester Assessment	: 70 Marks

Note: The syllabus is divided into five independent units and question paper will be divided into three sections:

- **Section-A** will carry 10 marks with 01 compulsory question comprising 10 short answer type questions (maximum 20 words answer) taking two questions from each unit. Each question shall be of one mark.
- **Section-B** will carry 25 marks with equally divided into five long answer type questions (answer about in 250 words). Paper setter shall be advised to set two questions from each unit and students are instructed to attempt five questions by selecting one question from each unit.
- **Section-C** will carry 35 marks with five long answer type questions comprising one compulsory question of 15 marks and four questions of 10 marks each. Students are instructed to attempt total three questions with one compulsory question (answer about in 500 words) and any two more questions (answer about in 400 words) out of remaining four questions. Paper setter shall be advised to design question paper covering from all five units.

Note: Contents of each unit may be completed into 15-18 lectures or contact hours which also include revisions, seminars, internal assessments, etc.

Unit- I: Simple Differentiation: 15-18 L

Concept of a function; Limit, Continuity and Differentiability of real valued function; Concave and Convex functions. Simple differentiation; Maxima, Minima and Point of inflexion. Applications of simple differentiation in economics.

Unit- II: Partial Differentiation: 15-18 L

Partial differentiation; Unconstrained and Constrained optimization (Two independent variable case). Applications partial differentiation in economics.

Unit- III: Integration and Differential Equations: 15-18 L

Integration: Indefinite and Definite; Applications of integration in economics, First order difference and Differential equations and their application in economics.

Unit- IV: Matrices and Determinants: 15-18 L

Matrices: Various types of matrices, Inverse of a matrix, Vectors. Determinants: Important properties and their applications in economics, Cramer's rule.

Unit- V: Matrices and Determinants: 15-18 L

Input-output model, Linear programming (graphical and simplex methods) and Game theory.

Paper- 1.4: ECO-514: Indian Economic Development and Policy-I

Contact Hours/Week	: 04 Hours	Maximum Marks	: 100 Marks
Duration of Examination	: 03 Hours	Continuous Assessment	: 30 Marks

Semester Assessment : 70 Marks

Note: The syllabus is divided into five independent units and question paper will be divided into three sections:

- **Section-A** will carry 10 marks with 01 compulsory question comprising 10 short answer type questions (maximum 20 words answer) taking two questions from each unit. Each question shall be of one mark.
- **Section-B** will carry 25 marks with equally divided into five long answer type questions (answer about in 250 words). Paper setter shall be advised to set two questions from each unit and students are instructed to attempt five questions by selecting one question from each unit.
- **Section-C** will carry 35 marks with five long answer type questions comprising one compulsory question of 15 marks and four questions of 10 marks each. Students are instructed to attempt total three questions with one compulsory question (answer about in 500 words) and any two more questions (answer about in 400 words) out of remaining four questions. Paper setter shall be advised to design question paper covering from all five units.

Note: Contents of each unit may be completed into 15-18 lectures or contact hours which also include revisions, seminars, internal assessments, etc.

Unit- I: Resources of India: 15-18 L

Natural resource in India – Land, Water, Forest and Minerals, Population – Size, Composition; Quality and Growth trends characteristics of Indian population through recent census, Population policy and Economic effects of population pressure.

Unit- II: Major Problem of India: 15-18 L

Poverty, unemployment and Human Development Index; Its measure, Latest HDI report. Human development during plan period – Appraisal of government measures, India's Human Development Record in global perspective.

Unit- III: Agricultural Development in India: 15-18 L

Agricultural development in India; Institutional aspects- Land reforms, Green revolution, Technological aspects – Agricultural inputs and Shifts in production function, Agricultural cost and Price policy.

Unit- IV: Agricultural Marketing and Credit in India: 15-18 L

Agricultural marketing and credit, Food policy and security, Subsidy and Public distribution system, Capital formation in Indian agriculture, Problems in agriculture – A need for second green revolution.

Unit- V: Industrial Development in India: 15-18 L

Industry – Strategy of industrial development and industrial policy; Reforms, Small scale and cottage industries, Reservation policy relating to small scale industries, Sources of industrial finance-Banks, Share Market, Insurance companies, Pension fund, Non banking sources and FDI, Role of foreign capital for direct investment and portfolio investment, Public sector reforms, privatization and disinvestment.

Elective Core Courses- A

The candidate is required to select any one elective course from the following:

Paper- 1.5: ECO-515 (A-01): Mathematical Economics- I

Contact Hours/Week	: 04 Hours	Maximum Marks	: 100 Marks
Duration of Examination	: 03 Hours	Continuous Assessment	: 30 Marks
		Semester Assessment	: 70 Marks

Note: The syllabus is divided into five independent units and question paper will be divided into three sections:

- **Section-A** will carry 10 marks with 01 compulsory question comprising 10 short answer type questions (maximum 20 words answer) taking two questions from each unit. Each question shall be of one mark.
- **Section-B** will carry 25 marks with equally divided into five long answer type questions (answer about in 250 words). Paper setter shall be advised to set two questions from each unit and students are instructed to attempt five questions by selecting one question from each unit.
- **Section-C** will carry 35 marks with five long answer type questions comprising one compulsory question of 15 marks and four questions of 10 marks each. Students are instructed to attempt total three questions with one compulsory question (answer about in 500 words) and any two more questions (answer about in 400 words) out of remaining four questions. Paper setter shall be advised to design question paper covering from all five units.

Note: Contents of each unit may be completed into 15-18 lectures or contact hours which also include revisions, seminars, internal assessments, etc.

Unit- I: Theory of Consumer Behavior-I: 15-18 L

Theory of consumer behavior-Nature of a utility function; Properties of an indifference curve; Maximization of utility; Demand functions: Ordinary and Compensated; Price and Income elasticity. Elasticity relations in demand analysis and restrictions on demand functions; Slutsky equation – n- Commodity case, Elasticity form and Important results.

Unit- II: Theory of Consumer Behavior-II: 15-18 L

Income and Leisure – Derivation of labour supply function and its properties; Linear expenditure system- Properties and derivation of linear demand function; Homogeneous and homothetic utility functions; Indirect utility functions- Properties, Derivation, Roy's identity and derivation of direct and inverse demand functions; Consumer's surplus.

Unit- III: Theory of Firm: 15-18 L

Theory of firm- Production function, Properties of a well behaved and homogeneous production function: Cobb Douglas and CES production functions, Product curves, Output elasticity of factor input, Isoquant, Elasticity of substitution of a homogeneous production function- Linearly homogeneous. Cobb- Douglas, CES production function and special cases of CES production function. Expansion path optimization behavior of a firm- Constrained cost minimization, Constrained output maximization and Profit maximization.

Unit- IV: Input Demand and Cost Functions: 15-18 L

Input demand functions– Properties and derivation of producer's input demand functions (through profit maximization); Cost functions – Properties and derivation of short run and long run cost functions (through profit maximization).

Unit- V: Perfect Competition: 15-18 L

Determination of optimum plant size; Perfect competition- Market demand, Producer demand, Supply functions (short run and long run), External economies and diseconomies, Commodity market equilibrium under perfect competition (short run and long run), Differential cost conditions and rent, Effects of taxes on optimum output level, Supply function and price level.

Note: Use of non- programmable calculator is permitted.

Paper- 1.5: ECO-515 (A-02): Demography – I

Contact Hours/Week	: 04 Hours	Maximum Marks	: 100 Marks
Duration of Examination	: 03 Hours	Continuous Assessment	: 30 Marks
		Semester Assessment	: 70 Marks

Note: The syllabus is divided into five independent units and question paper will be divided into three sections:

- **Section-A** will carry 10 marks with 01 compulsory question comprising 10 short answer type questions (maximum 20 words answer) taking two questions from each unit. Each question shall be of one mark.
- **Section-B** will carry 25 marks with equally divided into five long answer type questions (answer about in 250 words). Paper setter shall be advised to set two questions from each unit and students are instructed to attempt five questions by selecting one question from each unit.
- **Section-C** will carry 35 marks with five long answer type questions comprising one compulsory question of 15 marks and four questions of 10 marks each. Students are instructed to attempt total three questions with one compulsory question (answer about in 500 words) and any two more questions (answer about in 400 words) out of remaining four questions. Paper setter shall be advised to design question paper covering from all five units.

Note: Contents of each unit may be completed into 15-18 lectures or contact hours which also include revisions, seminars, internal assessments, etc.

Unit- I: Introduction to Demography and Population Theories: 15-18 L

Introduction to population study and demography; Its nature and scope; Relationship with other disciplines; Basic demographic concepts; Components of population change; Demographic transition and Optimum theory of population; Historical population trend in developed and developing regions.

Unit- II: Demographic Data and Census: 15-18L

Sources of demographic data (with details of items on which it collects data): Census of India. Vital registration system, Sample registration system, National sample survey organization, National family health survey and District level household survey.

Unit- III: Different Demographic Terms: 15-18L

Determinants and consequences of Age- Sex structure of population; Demographic dividend; Basic fertility terms, Concepts and data, Concept of morbidity, Measures of morbidity: Incidence and prevalence rates.

Unit- IV: Diseases, Migration and Fertility: 15-18 L

Meaning and measure of burden of diseases; Epidemiological transition. Concept of migration and mobility, Types of migration, Census definition of migrants. Measurement of fertility- Total fertility rate, Analysis of total fertility rate, Gross reproductive rate, Net reproductive rate; Fertility transition in India.

Unit- V: Demographic Techniques of Analysis: 15-18L

Techniques of analysis: Crude birth and death rates, Age specific birth and death rates, Infant mortality, Child mortality, Maternal mortality, Standardized birth and death rates.

Paper- 1.5: ECO-515 (A-03): Agricultural Economics - I

Contact Hours/Week	: 04 Hours	Maximum Marks	: 100 Marks
Duration of Examination	: 03 Hours	Continuous Assessment	: 30 Marks
		Semester Assessment	: 70 Marks

Note: The syllabus is divided into five independent units and question paper will be divided into three sections:

- **Section-A** will carry 10 marks with 01 compulsory question comprising 10 short answer type questions (maximum 20 words answer) taking two questions from each unit. Each question shall be of one mark.
- **Section-B** will carry 25 marks with equally divided into five long answer type questions (answer about in 250 words). Paper setter shall be advised to set two questions from each unit and students are instructed to attempt five questions by selecting one question from each unit.
- **Section-C** will carry 35 marks with five long answer type questions comprising one compulsory question of 15 marks and four questions of 10 marks each. Students are instructed to attempt total three questions with one compulsory question (answer about in 500 words) and any two more questions (answer about in 400 words) out of remaining four questions. Paper setter shall be advised to design question paper covering from all five units.

Note: Contents of each unit may be completed into 15-18 lectures or contact hours which also include revisions, seminars, internal assessments, etc.

Unit- I: Introduction of Agricultural Economics: 15-18 L

Introduction: Nature and Scope of Economics of Agriculture : Specificities of Farm Organization and Agricultural Production and Markets; Inter-sector Linkages of Agriculture [Backward and Forward Linkages and Feedback Effects].

Unit- II: Agriculture and Economic Development: 15-18 L

Role of Agriculture in Economic Development: Contribution of Agriculture to Economic Development; Historical Perspective [Experience of England, United States, Australia, Latin America, Soviet Russia, Japan and India]; Declining Role of Agriculture and Dilemmas of Development.

Unit- III: Agricultural Production Function: 15-18 L

Agricultural Production: Uniqueness of Agricultural Production; Various Types of Factor- Product, Factor- Factor and Product- Product Relations; Cobb- Douglas and CES Production Functions. Role of Farm Size and Structure in Equilibrium, Productivity, and Return to Scale. Sources and Barriers to Agricultural Development.

Unit- IV: Agricultural Transformation, Products and Supply: 15-18 L

Agricultural Transformation: Schultz Theory of Transformation of Traditional Agriculture, Agricultural Transformation: Indian Experience. Products, Characteristics of Supply of farm Products, Supply Response of Farm Products; Role of Price and Non- Price Factors in Inducing Aggregate Supply, Empirical Supply Response Functions and Evidence.

Unit- V: Risk and Uncertainty in Agriculture: 15-18 L

Risk and Uncertainty in Agriculture: Nature and Types of Risks and Uncertainties in Agriculture, Public Policies and Farm Level Measures to Reduce Risk and Uncertainties. Demand for and Supply of Farm Products; Characteristics of Demand For Farm Products; Quantity and Quality Components of Demand for Food, Forecasting of Demand for Food.

Paper- 1.5: ECO-515 (A-04): Industrial Economics - I

Contact Hours/Week	: 04 Hours	Maximum Marks	: 100 Marks
Duration of Examination	: 03 Hours	Continuous Assessment	: 30 Marks
		Semester Assessment	: 70 Marks

Note: The syllabus is divided into five independent units and question paper will be divided into three sections:

- **Section-A** will carry 10 marks with 01 compulsory question comprising 10 short answer type questions (maximum 20 words answer) taking two questions from each unit. Each question shall be of one mark.
- **Section-B** will carry 25 marks with equally divided into five long answer type questions (answer about in 250 words). Paper setter shall be advised to set two questions from each unit and students are instructed to attempt five questions by selecting one question from each unit.
- **Section-C** will carry 35 marks with five long answer type questions comprising one compulsory question of 15 marks and four questions of 10 marks each. Students are instructed to attempt total three questions with one compulsory question (answer about in 500 words) and any two more questions (answer about in 400 words) out of remaining four questions. Paper setter shall be advised to design question paper covering from all five units.

Note: Contents of each unit may be completed into 15-18 lectures or contact hours which also include revisions, seminars, internal assessments, etc.

Unit- I: Introduction of Industrial Economics:

15-18 L

Industrialization and development. Interdependence of industrial sectors; Backward and Forward linkages: Location of industries, theories and measures of industrial localization (Sargent F. & A. Weber) Localization of industries in India. Industrial project selection criteria.

Unit- II: Industrial Enterprise and Profit Maximization Models:

15-18 L

Modern corporation enterprise. Size and ownership Structure of industrial enterprise. Dominant position of corporate and its characteristics issue of separation of ownership from management and control models alternative to profit maximization. Bamol, Williamson, Marries, Cyert and March.

Unit- III: Different Market Structures and Sellers Concentration:

15-18 L

Monopoly power and oligopolistic market structure; Measures of sellers concentration. Determination of sellers concentration: Economies of scale. Barriers to entry, Mergers, Size and Growth of markets.

Unit- IV: Market Conduct Under Oligopoly:

15-18 L

Market conducts under oligopoly: Rivalry and Collusive conduct. Dominant firm behavior and potential competition. Limit price and Contestable markets. Non- price competition with reference to adverting.

Unit- V: Market Performance:

15-18 L

Market performance: Allocative efficiency. Market structure and profitability. Productive efficiency and Sub-optimal capacity. Allocative V/s Productive efficiency.

Paper- 1.5: ECO-515 (A-05): Indian Banking System

Contact Hours/Week	: 04 Hours	Maximum Marks	: 100 Marks
Duration of Examination	: 03 Hours	Continuous Assessment	: 30 Marks
		Semester Assessment	: 70 Marks

Note: The syllabus is divided into five independent units and question paper will be divided into three sections:

- **Section-A** will carry 10 marks with 01 compulsory question comprising 10 short answer type questions (maximum 20 words answer) taking two questions from each unit. Each question shall be of one mark.
- **Section-B** will carry 25 marks with equally divided into five long answer type questions (answer about in 250 words). Paper setter shall be advised to set two questions from each unit and students are instructed to attempt five questions by selecting one question from each unit.
- **Section-C** will carry 35 marks with five long answer type questions comprising one compulsory question of 15 marks and four questions of 10 marks each. Students are instructed to attempt total three questions with one compulsory question (answer about in 500 words) and any two more questions (answer about in 400 words) out of remaining four questions. Paper setter shall be advised to design question paper covering from all five units.

Note: Contents of each unit may be completed into 15-18 lectures or contact hours which also include revisions, seminars, internal assessments, etc.

Unit- I: Introduction of Indian Banking System: 15-18 L

Indian banking system as on the eve of bank nationalization, structure and development of commercial banks in India since 1999. Branch expansion programme and policy. Deposit mobilization and Sectoral allocation of bank credit.

Unit- II: Social, Mass Banking and Financial Sector Reforms: 15-18 L

Concept of social and Mass banking. Priority sector advances and Advance to the neglected sections of the society. Financial sector reforms- Context, need and objectives. Implementations of the Narsimham Committee recommendations, Issues in financial reforms.

Unit- III: Rural Banking and NABARD: 15-18 L

Rural banking – Overall structure and review of the contribution of major credit cooperatives, Commercial banks and Regional rural banks including NABARD.

Unit- IV: Human Resource Development: 15-18 L

Human resource development – Present and future HRD needs for bank employees in India. Recruitment, training and appraisal of bank employees, Khandelwal Committee recommendations on human resource in public sectors banks.

Unit- V: Reserve Bank of India: 15-18 L

The reserve bank of India – Functions and role .Autonomy of the RBI. Liquidity management, Monetary policy- Goals, Targets and Indicators. RBI' s Monetary Policy- Objectives and Techniques. Impact of RBI'S monetary policy on economic growth and Price stability.

Semester –II

Compulsory Core Courses

Paper- 2.1: ECO-521: Microeconomics Theory -II

Contact Hours/Week	: 04 Hours	Maximum Marks	: 100 Marks
Duration of Examination	: 03 Hours	Continuous Assessment	: 30 Marks
		Semester Assessment	: 70 Marks

Note: The syllabus is divided into five independent units and question paper will be divided into three sections:

- **Section-A** will carry 10 marks with 01 compulsory question comprising 10 short answer type questions (maximum 20 words answer) taking two questions from each unit. Each question shall be of one mark.
- **Section-B** will carry 25 marks with equally divided into five long answer type questions (answer about in 250 words). Paper setter shall be advised to set two questions from each unit and students are instructed to attempt five questions by selecting one question from each unit.
- **Section-C** will carry 35 marks with five long answer type questions comprising one compulsory question of 15 marks and four questions of 10 marks each. Students are instructed to attempt total three questions with one compulsory question (answer about in 500 words) and any two more questions (answer about in 400 words) out of remaining four questions. Paper setter shall be advised to design question paper covering from all five units.

Note: Contents of each unit may be completed into 15-18 lectures or contact hours which also include revisions, seminars, internal assessments, etc.

Unit- I: Oligopoly Market & Its Models: 15-18 L

Oligopoly market: Non-collusive models of Cournot, Bertrand, Edgeworth, Chamberlin and Stackelberg. Cartels and Price leadership, Baumol's model, Marris's and Williamson's managerial theory. Full cost pricing, Bain's limit pricing theory and recent developments including Sylos-Labini's model. Behavioral model of the firm.

Unit- II: Game Theory & Theory of Distribution: 15-18 L

Game theory; Theory of distribution: Neo-classical approach, Marginal productivity theory, Euler's theorem. Technical progress and Factor shares.

Unit- III: Factor Pricing: 15-18 L

Factor pricing under perfect and imperfect competition: Determination of wages, rent, interest and profit, Macro theories of distribution- Ricardo, Marx, Kalecki and Kaldor's models.

Unit- IV: Welfare Economics: 15-18 L

Welfare economics: Pigouvian welfare economics, Pareto optimality. Kaldor – Hicks compensation principle. Theory of second best, Scitovsky paradox; Little's welfare criterion.

Unit- V: Social Welfare Function: 15-18 L

Social welfare function and theory of social choice- Rawls, Bergson- Samuelson and Arrow's theorem. externalities, Public goods and market failures. Asymmetric information – Market Signaling Moral hazard, The principal – agent problem.

Paper- 2.2: ECO-522: Macroeconomics Theory –II

Contact Hours/Week	: 04 Hours	Maximum Marks	: 100 Marks
--------------------	------------	---------------	-------------

Duration of Examination : 03 Hours Continuous Assessment : 30 Marks

Semester Assessment : 70 Marks

Note: The syllabus is divided into five independent units and question paper will be divided into three sections:

- **Section-A** will carry 10 marks with 01 compulsory question comprising 10 short answer type questions (maximum 20 words answer) taking two questions from each unit. Each question shall be of one mark.
- **Section-B** will carry 25 marks with equally divided into five long answer type questions (answer about in 250 words). Paper setter shall be advised to set two questions from each unit and students are instructed to attempt five questions by selecting one question from each unit.
- **Section-C** will carry 35 marks with five long answer type questions comprising one compulsory question of 15 marks and four questions of 10 marks each. Students are instructed to attempt total three questions with one compulsory question (answer about in 500 words) and any two more questions (answer about in 400 words) out of remaining four questions. Paper setter shall be advised to design question paper covering from all five units.

Note: Contents of each unit may be completed into 15-18 lectures or contact hours which also include revisions, seminars, internal assessments, etc.

Unit-I: Determination of Output and Employment: 15-18 L

Determination of Output and Employment – The Classical and Keynesian Models; Multiplier- Concept, Working, Static and Dynamic Multiplier; Aggregate Supply and Aggregate Demand Model- Neo-Classical Three Sector Model and Keynesian Three Sector Model.

Unit-II: IS-LM Model: 15-18 L

IS-LM Model- The Interaction of Real and Monetary Sectors of the Economy, Keynesian Version of the IS-LM Model, Neo Classical Version of the IS-LM Model, Fiscal Policy and Crowding Out Effect; Role and Relative Effectiveness of Fiscal and Monetary Policies.

Unit-III: Open Economy Model: 15-18 L

Open Economy Macroeconomics- Trade Balance, Exchange Rates and International Monetary System: Mundell-Fleming Model: Analysis of Fiscal , Monetary and Trade Policies under Imperfect Capital Mobility and Perfect Capital Mobility with Fixed and Flexible Exchange Rate Systems.

Unit-IV: Inflation, Meaning, Types and Its Control: 15-18 L

Classical, Keynesian and Monetarist Approaches to Inflation and Policies to Control Inflation; Phillips Curve Analysis; Expectation Augmented Phillips Curve Analysis; Natural Rate of Unemployment Hypothesis. Role of RBI in Inflation Control, Credit Control and Economic Stability.

Unit-V: Determination of Output and Employment: 15-18 L

New Classical Macroeconomics – The New Classical Critique of Keynesian Micro Foundations. The Real Business Cycle Theory; Rational Expectations- Solution of a Simple Macroeconomic Model with Rational Expectations and Economic Interpretation.

Paper- 2.3: ECO-523: Statistical Methods

Contact Hours/Week : 04 Hours Maximum Marks : 100 Marks

Duration of Examination : 03 Hours Continuous Assessment : 30 Marks

Semester Assessment : 70 Marks

Note: The syllabus is divided into five independent units and question paper will be divided into three sections:

- **Section-A** will carry 10 marks with 01 compulsory question comprising 10 short answer type questions (maximum 20 words answer) taking two questions from each unit. Each question shall be of one mark.
- **Section-B** will carry 25 marks with equally divided into five long answer type questions (answer about in 250 words). Paper setter shall be advised to set two questions from each unit and students are instructed to attempt five questions by selecting one question from each unit.
- **Section-C** will carry 35 marks with five long answer type questions comprising one compulsory question of 15 marks and four questions of 10 marks each. Students are instructed to attempt total three questions with one compulsory question (answer about in 500 words) and any two more questions (answer about in 400 words) out of remaining four questions. Paper setter shall be advised to design question paper covering from all five units.

Note: Contents of each unit may be completed into 15-18 lectures or contact hours which also include revisions, seminars, internal assessments, etc.

Unit- I: Central Tendency, Dispersion and Skewness: 15-18 L

Measures of central tendency, Dispersion, Skewness, Measurement of Inequality Lorenz Curve and Gini Coefficient.

Unit- II: Kurtosis, Correlation & Regression: 15-18 L

Kurtosis, Correlation, Simple Regression and Interpretation of Multiple linear Regression Equation.

Unit- III: Time Series, Index Number & Probability: 15-18 L

Analysis of Time Series and Curve Fitting, Index Numbers Probability, Mathematical Expectation.

Unit- IV: Probability Distribution, Sampling & Hypothesis Testing: 15-18 L

Probability Distributions (Binomial, Poisson, and Normal); Sample, Sampling and Survey Methods, Testing of Hypothesis.

Unit- V: Different types of Test: 15-18 L

Application of Z, t F & X^2 tests, Association of Attributes, Analysis of Variance.

Paper- 2.4: ECO-524: Indian Economic Development and Policy-II

Contact Hours/Week : 04 Hours Maximum Marks : 100 Marks

Duration of Examination : 03 Hours Continuous Assessment : 30 Marks

Semester Assessment : 70 Marks

Note: The syllabus is divided into five independent units and question paper will be divided into three sections:

- **Section-A** will carry 10 marks with 01 compulsory question comprising 10 short answer type questions (maximum 20 words answer) taking two questions from each unit. Each question shall be of one mark.
- **Section-B** will carry 25 marks with equally divided into five long answer type questions (answer about in 250 words). Paper setter shall be advised to set two questions from each unit and students are instructed to attempt five questions by selecting one question from each unit.
- **Section-C** will carry 35 marks with five long answer type questions comprising one compulsory question of 15 marks and four questions of 10 marks each. Students are instructed to attempt total three questions with one compulsory question (answer about in 500 words) and any two more questions (answer about in 400 words) out of remaining four questions. Paper setter shall be advised to design question paper covering from all five units.

Note: Contents of each unit may be completed into 15-18 lectures or contact hours which also include revisions, seminars, internal assessments, etc.

Unit- I: Foreign Trade: 15-18 L

Foreign Trade: Salient features, Trends, Composition, Direction and Organization, Trade reforms, liberalization and Recent trade policy.

Unit- II: MNCs, W.T.O. & B.O.P.: 15-18 L

MNCs and their impact on Indian economy, WTO – issues and its impact on Indian economy, India’s balance of payment position in recent years.

Unit- III: Planning In India: 15-18 L

Economic planning: Goals, Achievements and Shortcomings of planned development, Planning and the market. Planning commission and NITI Ayog; Decentralized planning: Constitutional obligations and Panchayati Raj Institutions. Balwant Rai Mehta Committee and Ashok Mehta Committee, Financial aspects of 73rd and 74th constitutional amendments.

Unit- IV: National Income & Major Problems of Indian Economy: 15-18 L

National and Per Capita Income – Growth pattern and trends, Aggregate and Sectoral composition and change therein, Regional distribution, Income inequalities in – India. Problem of subsidy. Black money/ parallel economy, poverty, unemployment & governmental efforts for their solution.

Unit- V: Infrastructure & Reforms of Indian Economy: 15-18 L

Infrastructure development in India- Physical infrastructure [Power, Transport, Communication and Irrigation] and Social infrastructure [Health and Education]; New economic policy- LPG and Second phase of economic reforms, SEZs.

Elective Core Courses- B

The candidate is required to select any one elective course from the following:

Paper- 2.5: ECO-525 (B-01): Mathematical Economics- II

Contact Hours/Week	: 04 Hours	Maximum Marks	: 100 Marks
Duration of Examination	: 03 Hours	Continuous Assessment	: 30 Marks
		Semester Assessment	: 70 Marks

Note: The syllabus is divided into five independent units and question paper will be divided into three sections:

- **Section-A** will carry 10 marks with 01 compulsory question comprising 10 short answer type questions (maximum 20 words answer) taking two questions from each unit. Each question shall be of one mark.
- **Section-B** will carry 25 marks with equally divided into five long answer type questions (answer about in 250 words). Paper setter shall be advised to set two questions from each unit and students are instructed to attempt five questions by selecting one question from each unit.
- **Section-C** will carry 35 marks with five long answer type questions comprising one compulsory question of 15 marks and four questions of 10 marks each. Students are instructed to attempt total three questions with one compulsory question (answer about in 500 words) and any two more questions (answer about in 400 words) out of remaining four questions. Paper setter shall be advised to design question paper covering from all five units.

Note: Contents of each unit may be completed into 15-18 lectures or contact hours which also include revisions, seminars, internal assessments, etc.

Unit- I: Equilibrium: **15-18 L**

The existence and uniqueness of equilibrium – The stability of equilibrium, Static stability- Marshallian and Walrasian stability conditions and Dynamic stability- Lagged adjustment- the cobweb model.

Unit-II: Price and Output Equilibrium Under Different Market Structure: **15-18 L**

Monopoly- Maximization of profit and sales revenue, Price discrimination: Market discrimination and perfect discrimination, Multi- plant monopolist, Effect of various taxes on output and price of a monopoly firm, Bilateral monopoly; Monopolistic competition equilibrium: Short run and Long run; Duopoly and oligopoly market models: The quasi- competitive solution, the collusion solution, the Cournot solution, Stakelberg solution, the market share solution and the Kinked demand curve solution models.

Unit- III: Macroeconomic Models: **15-18 L**

Macroeconomic models- Keynesian theory of income determination and Derivation of different multipliers, employment and output determination with fixed and flexible prices: IS-LM and AD-AS models. Fleming-Mundell open economy model, Trade cycles: Multiplier-Accelerator interaction models of Samuelson and Hicks.

Unit- IV: Growth Models and Linear Programming: **15-18 L**

Growth models : Harrod – Domar model, Neoclassical models of Solow & Meade; Kaldor’s model. Linear programming- Simplex method: Problem of degeneracy and Mixed constraints, Duality theorems, Complementary slackness conditions. application of linear programming in economics.

Unit- V: Input-Output Models and Game Theory: **15-18 L**

Input-output analysis-Concepts of static, dynamic closed and open input- output models, Hawkins- Simon Conditions of Viability, Determination of Gross Output , Price and Value Added in Open Input- Output Model, Determination of Gross Output in Closed Input-Output Model; Theory of Games- Two-Person, Constant Sum Games, Zero-Sum Game, Maximin and Minimax, Dominant Strategies, Pure and Mixed Strategies Saddle Point Solution. Linear- Programming Formulation of a Matrix Game and Conversion of Game Theory into Linear Programming.

Note: Use of Non- Programmable Calculator is permitted.

Paper- 2.5: ECO-525 (B-02): Demography- II

Contact Hours/Week	: 04 Hours	Maximum Marks	: 100 Marks
Duration of Examination	: 03 Hours	Continuous Assessment	: 30 Marks
		Semester Assessment	: 70 Marks

Note: The syllabus is divided into five independent units and question paper will be divided into three sections:

- **Section-A** will carry 10 marks with 01 compulsory question comprising 10 short answer type questions (maximum 20 words answer) taking two questions from each unit. Each question shall be of one mark.
- **Section-B** will carry 25 marks with equally divided into five long answer type questions (answer about in 250 words). Paper setter shall be advised to set two questions from each unit and students are instructed to attempt five questions by selecting one question from each unit.
- **Section-C** will carry 35 marks with five long answer type questions comprising one compulsory question of 15 marks and four questions of 10 marks each. Students are instructed to attempt total three questions with one compulsory question (answer about in 500 words) and any two more questions (answer about in 400 words) out of remaining four questions. Paper setter shall be advised to design question paper covering from all five units.

Note: Contents of each unit may be completed into 15-18 lectures or contact hours which also include revisions, seminars, internal assessments, etc.

Unit- I: Demographic Theories: 15-18 L

Malthusian theory of population, Population as 'Limits to growth' and as 'Ultimate source'. Characteristics of Indian population through recent census.

Unit- II: Life Table: 15-18 L

Life table: basic concepts of life table; types and forms of life table; Construction of life tables based on Age- specific death rates. Conventional approach of life table construction; Concept and Need for life tables.

Unit- III: Poverty, Population Policy and Child Survival: 15-18 L

Poverty in India- Absolute and relative; analysis of poverty in India; population policy of India. Mosley and Chen's Framework for Child Survival: Bogart's proximate determinants of fertility

Unit- IV: Population Projection: 15-18 L

Concept and uses of population projection, Methods of interpolation, extrapolation using Gompertz curves; concepts and Measures of population ageing ; Implications of population ageing on labour force retirement and work participation among Elderly , Implication for government expenditure for pension.

Unit- V: Gender Issues and Population Policy of India: 15-18 L

Gender issues: Understanding gender, Gender inequalities, Gender differentials in nutrition and health, Employment and Property inheritance and Female headship; Modern theories of population and development: Pessimistic and Neutralist view; National population policy, 2000; National rural health mission.

Paper- 2.5: ECO-525 (B-03): Agricultural Economics - II

Contact Hours/Week	: 04 Hours	Maximum Marks	: 100 Marks
Duration of	: 03 Hours	Continuous Assessment	: 30 Marks

Examination

Semester Assessment : 70 Marks

Note: The syllabus is divided into five independent units and question paper will be divided into three sections:

- **Section-A** will carry 10 marks with 01 compulsory question comprising 10 short answer type questions (maximum 20 words answer) taking two questions from each unit. Each question shall be of one mark.
- **Section-B** will carry 25 marks with equally divided into five long answer type questions (answer about in 250 words). Paper setter shall be advised to set two questions from each unit and students are instructed to attempt five questions by selecting one question from each unit.
- **Section-C** will carry 35 marks with five long answer type questions comprising one compulsory question of 15 marks and four questions of 10 marks each. Students are instructed to attempt total three questions with one compulsory question (answer about in 500 words) and any two more questions (answer about in 400 words) out of remaining four questions. Paper setter shall be advised to design question paper covering from all five units.

Note: Contents of each unit may be completed into 15-18 lectures or contact hours which also include revisions, seminars, internal assessments, etc.

Unit- I: Agricultural Finance:

15-18 L

Agricultural finance: Financial characteristics of agriculture, Imperfect information [Agency relationship, Adverse selection, and Moral hazard] and Enforcement problems in Credit markets: Segmented rural credit markets, Resolving information and Incentive problems; Managing borrowers' Credit risks; Agribusiness and Trade financing; and rationale for government intervention in rural credit markets. Structure and functioning of rural credit market in India.

Unit-II: Agricultural Market-I:

15-18 L

Agricultural markets: Nature, Types and Problems of agricultural commodity markets; Marketing margins. Determinants; and Evaluation of marketing efficiency. Institutional and Organizations in agricultural markets [Farmers cooperatives, marketing orders, Marketing boards and trading enterprises].

Unit-III: Agricultural Market-II:

15-18 L

Horizontal structure of agricultural marketing, Vertical market relationships, Instability in agricultural markets, Price stabilization and social benefits, Storage and market stabilization, Role of commodity futures and options in stabilization.

Unit-IV: Food Securities and International Trade:

15-18 L

Food security and international trade: Concept, Threat, Indicators and Mechanism to food security: Food assistance programmes [both Domestic and International]. Main features of international trade in agricultural commodities, Domestic agricultural and Trade policies of developed countries and their impact on world trade.

Unit-V: GATT, World Trade Organization and Indian Agricultural Development :

15-18 L

Agriculture in GATT negotiations and WTO. Recent developments in Indian agriculture; Indian agricultural development strategy since independence. Opportunities and Challenges [Expectations, Performance, and Emerging constraints and potentials] for Indian agriculture in the post reform period. National Agricultural Policy (Latest) and the agricultural development strategy in the latest five year plan.

Paper- 2.5: ECO-525 (B-04): Industrial Economics - II

Contact Hours/Week	: 04 Hours	Maximum Marks	: 100 Marks
Duration of Examination	: 03 Hours	Continuous Assessment	: 30 Marks
		Semester Assessment	: 70 Marks

Note: The syllabus is divided into five independent units and question paper will be divided into three sections:

- **Section-A** will carry 10 marks with 01 compulsory question comprising 10 short answer type questions (maximum 20 words answer) taking two questions from each unit. Each question shall be of one mark.
- **Section-B** will carry 25 marks with equally divided into five long answer type questions (answer about in 250 words). Paper setter shall be advised to set two questions from each unit and students are instructed to attempt five questions by selecting one question from each unit.
- **Section-C** will carry 35 marks with five long answer type questions comprising one compulsory question of 15 marks and four questions of 10 marks each. Students are instructed to attempt total three questions with one compulsory question (answer about in 500 words) and any two more questions (answer about in 400 words) out of remaining four questions. Paper setter shall be advised to design question paper covering from all five units.

Note: Contents of each unit may be completed into 15-18 lectures or contact hours which also include revisions, seminars, internal assessments, etc.

Unit- I: Industrialization in India: **15-18 L**
Policy goal of industrialization in India . Nature of industrial data for organized industry. Major classification of the organized industry : Employment size and Ownership structure.

Unit- II: Industrial Growth and Development in India: **15-18 L**
Pattern of industrial growth and changes in industrial structure in India since 1951. Factors affecting industrial location. Regional imbalances in industrial development in India and government policy for balanced regional development of industry.

Unit- III: Market Structure: **15-18 L**
Market structure and R & D. Allocative efficiency and capacity utilization Indian industry; Productivity growth, FDI and Acquisition of technology in India.

Unit- IV: Industrial Reforms: **15-18 L**
MRTP and nature of concentration of Indian industry. Liberalization and Privatization in Indian industry.

Unit- V: Merger, Takeovers and Industrial Development in Rajasthan : **15-18 L**
Mergers and Takeovers. Competition Policy and Consumer protection in India. Industrial development in Rajasthan.

Paper- 2.5: ECO-525 (B-05): Indian Financial System

Contact Hours/Week	: 04 Hours	Maximum Marks	: 100 Marks
Duration of Examination	: 03 Hours	Continuous Assessment	: 30 Marks

Semester Assessment : 70 Marks

Note: The syllabus is divided into five independent units and question paper will be divided into three sections:

- **Section-A** will carry 10 marks with 01 compulsory question comprising 10 short answer type questions (maximum 20 words answer) taking two questions from each unit. Each question shall be of one mark.
- **Section-B** will carry 25 marks with equally divided into five long answer type questions (answer about in 250 words). Paper setter shall be advised to set two questions from each unit and students are instructed to attempt five questions by selecting one question from each unit.
- **Section-C** will carry 35 marks with five long answer type questions comprising one compulsory question of 15 marks and four questions of 10 marks each. Students are instructed to attempt total three questions with one compulsory question (answer about in 500 words) and any two more questions (answer about in 400 words) out of remaining four questions. Paper setter shall be advised to design question paper covering from all five units.

Note: Contents of each unit may be completed into 15-18 lectures or contact hours which also include revisions, seminars, internal assessments, etc.

Unit- I: Introduction to Indian Financial System:

15-18 L

Financial system –Meaning, Structure and Functions of financial system. Financial system and Economic development. Financial intermediaries and Financial markets.

Unit-II: Money Markets:

15-18 L

Money market – Designation, Nature and Role of money market in the economy. Indian money market – Call money market, Treasury bills market, Commercial bill market , Markets for commercial paper and Certificate of deposits.

Unit-III: Government Security Markets:

15-18 L

Government security market – Nature and Organization of government security market, Volume and Composition of issues. Secondary market transactions, Prices and Yield. implications of monetary policy, Recent development in government security market.

Unit-IV: Industrial Security Market:

15-18 L

Industrial security market- Organization and Structure. Listing, Trading and Settlement. Primary and Secondary market. Drawbacks of Indian stock market . Recent development in industrial security market.

Unit-V: Market for Future , Option and Discount :

15-18 L

The discount market. Discount and Finance house of India and Securities trading corporation of India. Market for futures, Options and Other financial derivatives.

Semester- III

Compulsory Core Courses

Paper- 3.1: ECO-631: Public Economics- I

Contact Hours/Week	: 04 Hours	Maximum Marks	: 100 Marks
Duration of Examination	: 03 Hours	Continuous Assessment	: 30 Marks
		Semester Assessment	: 70 Marks

Note: The syllabus is divided into five independent units and question paper will be divided into three sections:

- **Section-A** will carry 10 marks with 01 compulsory question comprising 10 short answer type questions (maximum 20 words answer) taking two questions from each unit. Each question shall be of one mark.
- **Section-B** will carry 25 marks with equally divided into five long answer type questions (answer about in 250 words). Paper setter shall be advised to set two questions from each unit and students are instructed to attempt five questions by selecting one question from each unit.
- **Section-C** will carry 35 marks with five long answer type questions comprising one compulsory question of 15 marks and four questions of 10 marks each. Students are instructed to attempt total three questions with one compulsory question (answer about in 500 words) and any two more questions (answer about in 400 words) out of remaining four questions. Paper setter shall be advised to design question paper covering from all five units.

Note: Contents of each unit may be completed into 15-18 lectures or contact hours which also include revisions, seminars, internal assessments, etc.

Unit- I: Introduction to Public Finance: 15-18 L

Nature and Scope of Public Finance and Private Finance, Economic. Analysis of Public policy, Role of Government in the Economic Activity- Allocation, Distribution and Stabilization Functions, Private, Public and Merit Goods. Theory of Externalities – External Benefits and Cost- Correction of Externalities, Principle of Maximum Social Advantage.

Unit-II: Budgeting 15-18 L

Public Budgets – Kinds of Budgets, Optimal Budgeting, Balanced and Unbalanced Budgets – Deficit Financing, Performance and Programming Budgeting, Zero Base Budgeting.

Unit-III: Public Expenditure: 15-18 L

Public Expenditure – Hypothesis and evaluation, Effects of Public Expenditure on Production and Distribution, Bowen, Lindhal and Samuelson's Models, Wagner's Law of Increasing State Activities, Weisman Peacock Hypothesis.

Unit-IV: Public Expenditure: 15-18 L

Public Revenue – Canons of Taxation, Different Approaches to the Division of Tax Burden, Incidence and Effects of Taxation, Taxable Capacity, Justice in Taxation, Benefit & Ability to Pay Approaches. Theory of Optimal Taxation – Equal Absolute, Equal- Proportional, Equal-Marginal and least Aggregate Sacrifice Principles. Buoyancy and Elasticity of Tax.

Unit-V: Tax System: 15-18 L

Direct and Indirect taxes – Effects of Direct Tax on Production (viz. Labour Supply and Saving Rate) and Distribution, Effects of Indirect Tax on Production, Progressiveness of a Tax System and its Measurement. Shifting and Incidence under Monopoly and Perfect Competition.

Paper- 3.2: ECO-632: International Trade Theory

Contact Hours/Week	: 04 Hours	Maximum Marks	: 100 Marks
Duration of Examination	: 03 Hours	Continuous Assessment	: 30 Marks
		Semester Assessment	: 70 Marks

Note: The syllabus is divided into five independent units and question paper will be divided into three sections:

- **Section-A** will carry 10 marks with 01 compulsory question comprising 10 short answer type questions (maximum 20 words answer) taking two questions from each unit. Each question shall be of one mark.
- **Section-B** will carry 25 marks with equally divided into five long answer type questions (answer about in 250 words). Paper setter shall be advised to set two questions from each unit and students are instructed to attempt five questions by selecting one question from each unit.
- **Section-C** will carry 35 marks with five long answer type questions comprising one compulsory question of 15 marks and four questions of 10 marks each. Students are instructed to attempt total three questions with one compulsory question (answer about in 500 words) and any two more questions (answer about in 400 words) out of remaining four questions. Paper setter shall be advised to design question paper covering from all five units.

Note: Contents of each unit may be completed into 15-18 lectures or contact hours which also include revisions, seminars, internal assessments, etc.

Unit- I: Introduction to International Trade & Classical Trade Theory **15-18 L**

Early Trade Theories: Mercantilism, Classical Theory of Trade, Absolute Advantage and Comparative Advantage – Views of Adam Smith, Ricardo, Mill, Haberler, Empirical Testing of Classical Theory.

Unit- II: Standard Trade Theory: **15-18 L**

Standard Theory of Trade – Production Possibility Frontier, Community Indifference Curves, Offer Curves, Trade Indifference Curves, Terms of Trade and Gains from Trade.

Unit- III: Modern Trade Theory: **15-18 L**

Factor Endowments and Heckscher Ohlin Model- Factor Price Equalization Theorem, Stolper – Samuelson theorem, Metzler Paradox and Rybczynski Theorem, Empirical Verification of H-O Theory, Leontief Paradox, Meade's General Equilibrium in trade. International Trade under Imperfection Competition in Goods Markets Intra Industry Trade.

Unit- IV: Economic Growth and International Trade: **15-18 L**

Economic Growth and International Trade – Growth of Factors of Production, Technical Progress, Immiserizing Growth, International Factor Movements – Labour and Capital Movements and their Effects, Brain, Drain, Multinational Corporations and their Role.

Unit- V: Barriers and International Trade: **15-18 L**

Free Trade versus Protection, Instruments of Protection and their Effects, Tariffs (Partial and General Equilibrium), Quota, and other Non-Tariff Barriers.

Paper- 3.3: ECO-633: Economics of Developments and Growth – I

Contact Hours/Week	: 04 Hours	Maximum Marks	: 100 Marks
Duration of Examination	: 03 Hours	Continuous Assessment	: 30 Marks
		Semester Assessment	: 70 Marks

Note: The syllabus is divided into five independent units and question paper will be divided into three sections:

- **Section-A** will carry 10 marks with 01 compulsory question comprising 10 short answer type questions (maximum 20 words answer) taking two questions from each unit. Each question shall be of one mark.
- **Section-B** will carry 25 marks with equally divided into five long answer type questions (answer about in 250 words). Paper setter shall be advised to set two questions from each unit and students are instructed to attempt five questions by selecting one question from each unit.
- **Section-C** will carry 35 marks with five long answer type questions comprising one compulsory question of 15 marks and four questions of 10 marks each. Students are instructed to attempt total three questions with one compulsory question (answer about in 500 words) and any two more questions (answer about in 400 words) out of remaining four questions. Paper setter shall be advised to design question paper covering from all five units.

Note: Contents of each unit may be completed into 15-18 lectures or contact hours which also include revisions, seminars, internal assessments, etc.

Unit- I: The Concept of Development

15-18 L

Understanding development: Dividing the world and levels of development (Development as an evolving concept i.e. development, growth and change, Coulet's core values of development; Sen's conception of development; Income/Output based measures and their inadequacies; PQLI and HDI as indicators of Development). concept measures and problems of growth.

Unit- II: Standard Trade Theory:

15-18 L

Ingredients of Development – Land, Labour, Physical and Human capital, Technological change, Scale and organization, Sustainable development -conceptualization, concern, indicators and remedial measures. Poverty and inequalities in LDCs and their impact on development.

Unit- III: Theories of Economics Development:

15-18 L

Agriculture – Industry interface – Interdependence between Agriculture and industry; Industrialization and urbanization (The models of Lewis Fei and Ranis and Todaro); The balanced growth doctrine (review of Rosenstein, Nurkse and Lewis); Strategy of unbalanced (Hirschman's version), and the reconciliation of the two.

Unit- IV: Project Evaluation Criteria:

15-18 L

Internal rate of return (IRR), Net present value (NPV) and Cost – benefit analysis discount rate, Shadow prices of capital, Unskilled labour and foreign exchange, Choice of techniques, Capital-output ratio, Applications of input-output analysis in planning.

Unit- V: Finance of Economic Development:

15-18 L

Domestic and external resources, Two-gap model, International trade and development, Types and approaches of planning. Plan models of India, Past performance and current issues of Indian planning.

Elective Core Courses- C

The candidate is required to select any two elective course from the following:

(C-01): Economics of Infrastructure-I

Contact Hours/Week	: 04 Hours	Maximum Marks	: 100 Marks
Duration of Examination	: 03 Hours	Continuous Assessment	: 30 Marks
		Semester Assessment	: 70 Marks

Note: The syllabus is divided into five independent units and question paper will be divided into three sections:

- **Section-A** will carry 10 marks with 01 compulsory question comprising 10 short answer type questions (maximum 20 words answer) taking two questions from each unit. Each question shall be of one mark.
- **Section-B** will carry 25 marks with equally divided into five long answer type questions (answer about in 250 words). Paper setter shall be advised to set two questions from each unit and students are instructed to attempt five questions by selecting one question from each unit.
- **Section-C** will carry 35 marks with five long answer type questions comprising one compulsory question of 15 marks and four questions of 10 marks each. Students are instructed to attempt total three questions with one compulsory question (answer about in 500 words) and any two more questions (answer about in 400 words) out of remaining four questions. Paper setter shall be advised to design question paper covering from all five units.

Note: Contents of each unit may be completed into 15-18 lectures or contact hours which also include revisions, seminars, internal assessments, etc.

Unit- I: Infrastructure and Economic Development:

15-18L

Infrastructure and economic development – infrastructure as a public, Social and physical infrastructure; Special characteristics of infrastructural facilities, Green infrastructure, The peak load, off load problem; Dual principle controversy.

Unit- II: Pricing Methods:

15-18 L

Economics of scale of joint supply; Marginal cost pricing vs. other methods of pricing in public utilities; Cross subsidization – free prices, equity and efficiency.

Unit- III: Transport Sector in India:

15-18 L

Modal cost of transportation. Principle of pricing. Public transportation for sustainable development. Transport management in India. Future development in transport sector. Infrastructure development and reforms in transport sector in India.

Unit- IV: Modern Transport System in India:

15-18 L

Six modern transport system in India- Metro, Air connectivity, Green buses, Railways, Marine & River and delivery by drones. Problems of different modes of transport. Privatization of railway.

Unit- V: Telecommunication Sector in India:

15-18 L

Structure of telecommunication sector. Price determination; Infrastructure development and reforms in communication; Characteristics and problems of Postal Services; Fixation of postal rates in India; Significance of Telephone and postal services in India. Growth of digital communication networks.

(C-02): Environmental Economics- I

Contact Hours/Week	: 04 Hours	Maximum Marks	: 100 Marks
Duration of Examination	: 03 Hours	Continuous Assessment	: 30 Marks
		Semester Assessment	: 70 Marks

Note: The syllabus is divided into five independent units and question paper will be divided into three sections:

- **Section-A** will carry 10 marks with 01 compulsory question comprising 10 short answer type questions (maximum 20 words answer) taking two questions from each unit. Each question shall be of one mark.
- **Section-B** will carry 25 marks with equally divided into five long answer type questions (answer about in 250 words). Paper setter shall be advised to set two questions from each unit and students are instructed to attempt five questions by selecting one question from each unit.
- **Section-C** will carry 35 marks with five long answer type questions comprising one compulsory question of 15 marks and four questions of 10 marks each. Students are instructed to attempt total three questions with one compulsory question (answer about in 500 words) and any two more questions (answer about in 400 words) out of remaining four questions. Paper setter shall be advised to design question paper covering from all five units.

Note: Contents of each unit may be completed into 15-18 lectures or contact hours which also include revisions, seminars, internal assessments, etc.

Unit- I: Introduction of Environmental Economics and Resources: 15-18 L

Environmental economics: meaning, scope, positive versus normative perspective. Relation of environmental economics with economics, Ecological economics and resource economics. Classification of resources: Renewable and non- renewable. Biotic and abiotic, Exhaustible and non- exhaustible resources.

Unit- II: Sustainable Development and Disaster Risk Management: 15-18 L

Sustainable development: concept, objectives, indicators, strong and weak sustainability. Development and environment: Environmental Kuznets curve, Trade and environment. Disaster risk management and Development: Risk identification, Risk reduction and transfer. Adverse event management and recovery.

Unit- III: Environmental Pollutions: 15-18 L

Air pollution: Types of pollutants and their impact; Water pollution: Concepts of BOD and COD, pH values, Fluoride, Fertilizer use; Land degradation: Problem of solid waste disposal and contamination; Problem of salinity and Water logging; A forestation and deforestation, Significance of social forestry.

Unit- IV: Depletion of Ozone Layer and Environmental Benefits: 15-18 L

Depletion of ozone layer: Green house effect, Global warming and climate change- Acid rain, Urban pollution and urban health. Economic theory and measurement of environmental benefits. Demand for environmental service – Willingness to pay and willingness to accept.

Unit- V: Methods of Environmental Valuation: 15-18 L

Alternative approaches and methods of environmental valuation – Revealed preference and stated preference method – Hedonic pricing. Household production function, Travel cost method, Defensive cost and contingent Valuation method. Green accounting; Flaws in conventional system of national income accounts, Requisite modifications to national income account.

(C-03): Econometrics- I

Contact Hours/Week	: 04 Hours	Maximum Marks	: 100 Marks
Duration of Examination	: 03 Hours	Continuous Assessment	: 30 Marks

Semester Assessment : 70 Marks

Note: The syllabus is divided into five independent units and question paper will be divided into three sections:

- **Section-A** will carry 10 marks with 01 compulsory question comprising 10 short answer type questions (maximum 20 words answer) taking two questions from each unit. Each question shall be of one mark.
- **Section-B** will carry 25 marks with equally divided into five long answer type questions (answer about in 250 words). Paper setter shall be advised to set two questions from each unit and students are instructed to attempt five questions by selecting one question from each unit.
- **Section-C** will carry 35 marks with five long answer type questions comprising one compulsory question of 15 marks and four questions of 10 marks each. Students are instructed to attempt total three questions with one compulsory question (answer about in 500 words) and any two more questions (answer about in 400 words) out of remaining four questions. Paper setter shall be advised to design question paper covering from all five units.

Note: Contents of each unit may be completed into 15-18 lectures or contact hours which also include revisions, seminars, internal assessments, etc.

Unit- I: Basic Econometrics: 15-18 L

Nature, meaning, definition, scope and goals of econometrics, Random variables, Statistical inference. Simple linear regression model (2 Variables), Estimation of regression parameters using ordinary least square (OLS) method and maximum likelihood method. Basic assumptions and Properties of estimators, Test of significance, confidence interval and analysis of variance.

Unit- II: Regression Model: 15-18 L

Various functional forms of regression models. General linear model (n variables, matrix notation)- Estimation of regression parameters by least square methods; Derivation of Least square Parameters; Properties of Estimators, Test of significance; Aitken Estimator.

Unit- III: Violation of Basic Assumptions: 15-18 L

Autocorrelation, Multicollinearity, Heteroscedasticity; and Specification error, D-W statistics.

Unit- IV: Dummy Variable: 15-18 L

Dummy as Independent Variable(s): Dummy variables and uses of dummy as independent variables. Dummy as Dependent Variable: Description, Assumption and Estimation of Linear Probability Model. Logit [both Binomial and Multinomial] and Probit Model, Limited Dependent Variables: Tobit Model

Unit- V: Dynamic Econometric Model: 15-18 L

Auto-regressive and Distributed Lag Models – Koyck Model, Partial Adjustment Model, Adaptive Expectations, Almon Approach to Distributed Lag models Methods of Instrument Variables.

Note – Use of non-programmable calculator is permitted.

(C-04): Health Economics- I

Contact Hours/Week	: 04 Hours	Maximum Marks	: 100 Marks
Duration of Examination	: 03 Hours	Continuous Assessment	: 30 Marks
		Semester Assessment	: 70 Marks

Note: The syllabus is divided into five independent units and question paper will be divided into three sections:

- **Section-A** will carry 10 marks with 01 compulsory question comprising 10 short answer type questions (maximum 20 words answer) taking two questions from each unit. Each question shall be of one mark.
- **Section-B** will carry 25 marks with equally divided into five long answer type questions (answer about in 250 words). Paper setter shall be advised to set two questions from each unit and students are instructed to attempt five questions by selecting one question from each unit.
- **Section-C** will carry 35 marks with five long answer type questions comprising one compulsory question of 15 marks and four questions of 10 marks each. Students are instructed to attempt total three questions with one compulsory question (answer about in 500 words) and any two more questions (answer about in 400 words) out of remaining four questions. Paper setter shall be advised to design question paper covering from all five units.

Note: Contents of each unit may be completed into 15-18 lectures or contact hours which also include revisions, seminars, internal assessments, etc.

Unit- I: Introduction to Health Economics: 15-18 L

Concepts; The four basic questions; Relation between system structure and performance. Health and medical care: An economic perspective: Definition of health; Utility analysis; Medical care; Production of good health.

Unit- II: Efficiency in Health Sector: 15-18 L

Efficiency in health sector and its elements; Pareto efficiency; Economic evolution of efficiency; Cost and Benefit analysis: Cost identification analysis; Cost-Benefit analysis (Discounting, Value of life, application of cost-benefit analysis); Cost effectiveness and cost utility analysis; An application of cost effectiveness analysis.

Unit- III: Health Care System and Institutions: 15-18 L

Health care system and institutions: Elements of health care system; Role and financing method of third party payer(s); Risk management; Reimbursement and consumer cost sharing; The production of medical services. Demand for medical care; Law of demand; Relationship between health insurance and demand for medical care; Moral hazard; Elasticities.

Unit- IV: Medical Care Production, Cost and Insurance: 15-18 L

Medical care production and Cost: Short run production function and cost theory of representative medical firm; Long run cost of production; Neo-Classical cost theory. Demand for medical insurance: The conventional theory of demand for private health insurance; Nyman's access theory of demand for private health insurance; Traditional V/s Managed care insurance product.

Unit- V: Structure, Conduct, Performance and Market Analysis: 15-18 L

Structure, Conduct, Performance and Market analysis: Relevance of perfectly competitive market to medical care; Monopoly model of market behavior and performance; Monopolistic competition; Oligopoly; Measuring concentration and identifying market power.

(C-05): International Finance

Contact Hours/Week	: 04 Hours	Maximum Marks	: 100 Marks
Duration of Examination	: 03 Hours	Continuous Assessment	: 30 Marks

Semester Assessment : 70 Marks

Note: The syllabus is divided into five independent units and question paper will be divided into three sections:

- **Section-A** will carry 10 marks with 01 compulsory question comprising 10 short answer type questions (maximum 20 words answer) taking two questions from each unit. Each question shall be of one mark.
- **Section-B** will carry 25 marks with equally divided into five long answer type questions (answer about in 250 words). Paper setter shall be advised to set two questions from each unit and students are instructed to attempt five questions by selecting one question from each unit.
- **Section-C** will carry 35 marks with five long answer type questions comprising one compulsory question of 15 marks and four questions of 10 marks each. Students are instructed to attempt total three questions with one compulsory question (answer about in 500 words) and any two more questions (answer about in 400 words) out of remaining four questions. Paper setter shall be advised to design question paper covering from all five units.

Note: Contents of each unit may be completed into 15-18 lectures or contact hours which also include revisions, seminars, internal assessments, etc.

Unit- I: Introduction to International Finance: 15-18 L

International Finance – Functions, sources and uses; International capital flows: Foreign Direct Investment (FDI), Foreign Portfolio Investment (FII), Effects of Investment on host countries and Financial instability, India's policy towards foreign capital, International financial system and Global economy

Unit- II: Foreign Exchange Market: 15-18 L

Principles of international financial management, Foreign exchange market – Structure, kinds, instruments of payments, functions, trading. Developments in foreign exchange markets – Euro-currency markets, Asian dollar markets and International bonds markets. Stability of foreign exchange market. Foreign exchange rate – Meaning, exchange risk, Hedging and Speculation. Determination of Equilibrium Exchange Rate and Exchange Rate Systems.

Unit- III: International Business Finance & Monetary System : 15-18 L

International business finance: Traditional trade finance, Multilateral financial markets, International banking, International financial centers, International trade and business organizations, Trade imbalances in the modern global economy, International Monetary System and Alternative International Monetary Standards, IMF and Problem of International liquidity.

Unit- IV: Asian Development Bank and World Bank: 15-18 L

Theory of optimum currency areas – Growth of regional financial institutions. Reforms in international monetary system of developing countries, Asian development bank and its lending activities borrowing form World Bank, Asian development bank and Aid India club nations and its overall impact on Indian economy. Open economy of India – Trends in India's balance of payments.

Unit- V: International Regional Blocks: 15-18 L

Role of the regional blocks – EU, NAFTA, ASEAN SAFTA etc. in the international business, WTO and its impact on different sectors of the Indian economy. Growth of foreign exchange reserves since the year 1990, Convertibility of Indian rupee and its impact on Indian economy, Exchange rate management of India.

(C-06): Computer Applications in Economics

Contact Hours/Week	: 04 Hours	Maximum Marks	: 100 Marks
Duration of Examination	: 03 Hours	Continuous Assessment	: 30 Marks
		Semester Assessment	: 70 Marks

Note: The syllabus is divided into five independent units and question paper will be divided into three sections:

- **Section-A** will carry 10 marks with 01 compulsory question comprising 10 short answer type questions (maximum 20 words answer) taking two questions from each unit. Each question shall be of one mark.
- **Section-B** will carry 25 marks with equally divided into five long answer type questions (answer about in 250 words). Paper setter shall be advised to set two questions from each unit and students are instructed to attempt five questions by selecting one question from each unit.
- **Section-C** will carry 35 marks with five long answer type questions comprising one compulsory question of 15 marks and four questions of 10 marks each. Students are instructed to attempt total three questions with one compulsory question (answer about in 500 words) and any two more questions (answer about in 400 words) out of remaining four questions. Paper setter shall be advised to design question paper covering from all five units.

Note: Contents of each unit may be completed into 15-18 lectures or contact hours which also include revisions, seminars, internal assessments, etc.

Unit- I: Introduction to Computer: 15-18 L

What is computer and its applications? Data representation: Introduction to number system: Binary system, Octal number system, Hexadecimal number system, Decimal number system. Converting form one number to another number: Converting to binary form octal, converting to octal from binary, converting to decimal from binary octal, Hexadecimal, converting to binary from hexadecimal, and converting to hexadecimal from binary.

Unit- II: Floating Point Arithmetic & MS Excel: 15-18 L

Addition, subtraction, multiplication, division of floating point; MS Excel: Worksheet overview, entering information, worksheet creation, opening and saving, workbook, formatting numbers and texts, protecting cells, producing charts and printing operations. Introduction to MS Excel and MS Access.

Unit- III: Data Processing, Techniques and Algorithms: 15-18 L

Concept of data, record and file, types of data and data structures, data analysis: file handling, appending and cascading, closing and attribute control: data storage and retrieval: data operations: algorithms like sorting, merging, joining and bifurcation: database concepts and operations on database: DBMS and RDBMS.

Unit- IV: Statistical Processing Techniques and Methods-I: 15-18 L

Time and frequency series, - presentation of charts and scatter plots- line, sub-divided, multiple, pie graphs- estimation of growth rates, C.V., trend equations and regression equations – Estimation of simple econometric model using analysis tool – Introduction to SPSS, E-Views and STATA.

Unit- V: Statistical Processing Techniques and Methods-II: 15-18 L

Input – Output Statement: Scanf, Printf, Library functions. Control structures: decision making and loop statements. Use of: Arrays, string and string functions. IT applications to economics on line banking electronic transaction: Document delivery: Authentication and validation transaction processing – Document and transaction security and digital signature.

Semester –IV

Compulsory Core Courses

Paper- 4.1: ECO-641: Public Economics -II

Contact Hours/Week : 04 Hours Maximum Marks : 100 Marks

Duration of : 03 Hours Continuous Assessment : 30 Marks

Examination

Semester Assessment : 70 Marks

Note: The syllabus is divided into five independent units and question paper will be divided into three sections:

- **Section-A** will carry 10 marks with 01 compulsory question comprising 10 short answer type questions (maximum 20 words answer) taking two questions from each unit. Each question shall be of one mark.
- **Section-B** will carry 25 marks with equally divided into five long answer type questions (answer about in 250 words). Paper setter shall be advised to set two questions from each unit and students are instructed to attempt five questions by selecting one question from each unit.
- **Section-C** will carry 35 marks with five long answer type questions comprising one compulsory question of 15 marks and four questions of 10 marks each. Students are instructed to attempt total three questions with one compulsory question (answer about in 500 words) and any two more questions (answer about in 400 words) out of remaining four questions. Paper setter shall be advised to design question paper covering from all five units.

Note: Contents of each unit may be completed into 15-18 lectures or contact hours which also include revisions, seminars, internal assessments, etc.

Unit- I: Public Debt:

15-18 L

Theory of public debt– sources, effects, burden and its management, loans and saving as sources of finance for development. Internal and external public debt of India.

Unit- II: Fiscal Policy:

15-18 L

Fiscal policy – neutral and compensatory fiscal policy; Functional finance; Fiscal policy in developing countries; Fiscal policy for stabilization– automatic and discretionary stabilizers. Built in flexibility, Interdependence of fiscal and monetary policies, Balanced budget multiplier, Anti-inflationary policy.

Unit- III: Indian Tax System & Budget:

15-18 L

Indian tax system – salient features, major taxes, main trends in the revenue of the central and state governments in India, Non – tax revenue, Union budget of India, Major trends in public expenditure in India (growth and composition), Problem of budget deficit and FRBM Act.

Unit- IV: Fiscal Federalism & Public enterprises in India:

15-18 L

Fiscal federalism – theory and problems, Problems of centered state financial rotations in India, Criteria for resource transfer from the centre to states, Finance commissions and devolution of resources to states, Pricing policy in public enterprises, disinvestment and privatization of Public enterprises in India.

Unit- V: Recent Tax Reforms in India:

15-18 L

Recent tax reforms in India, Recommendation of Raja J. Chelliah Committee and Kelkar Committee. Direct tax code and GST. State finances of Rajasthan – trend and composition of revenue and expenditure.

Paper- 4.2: ECO-642: Trade Policy and International Monetary System

Contact Hours/Week	: 04 Hours	Maximum Marks	: 100 Marks
Duration of Examination	: 03 Hours	Continuous Assessment	: 30 Marks
		Semester Assessment	: 70 Marks

Note: The syllabus is divided into five independent units and question paper will be divided into three sections:

- **Section-A** will carry 10 marks with 01 compulsory question comprising 10 short answer type questions (maximum 20 words answer) taking two questions from each unit. Each question shall be of one mark.
- **Section-B** will carry 25 marks with equally divided into five long answer type questions (answer about in 250 words). Paper setter shall be advised to set two questions from each unit and students are instructed to attempt five questions by selecting one question from each unit.
- **Section-C** will carry 35 marks with five long answer type questions comprising one compulsory question of 15 marks and four questions of 10 marks each. Students are instructed to attempt total three questions with one compulsory question (answer about in 500 words) and any two more questions (answer about in 400 words) out of remaining four questions. Paper setter shall be advised to design question paper covering from all five units.

Note: Contents of each unit may be completed into 15-18 lectures or contact hours which also include revisions, seminars, internal assessments, etc.

Unit- I: Trade Policies: **15-18 L**

Political economy of protectionism: Trade policy in developing nations, Import substitution V/s Export promotion, Strategic trade policy in developed nations. Trade and economic development, Deteriorating terms of trade of developing Nations- Prebisch-Singer hypothesis, Current trade problems of developing nations.

Unit- II: International capital movement and monetary system: **15-18 L**

International capital movement and factors affecting it, various forms of foreign capital and its role in economic development. Rise and falls of Bretton – woods system and present international monetary system, IMF, World Bank their achievements and failures.

Unit- III: Economic integration and WTO: **15-18 L**

Economic integration – stages and forms. Theory of customs union: static and dynamic effects, Regional trade blocks – bilateral and multi-lateral international negotiations, Preferential trade areas (PTA's) and Free Trade Areas (FTA's.) WTO issues and its impact on trade.

Unit- IV: Foreign Exchange and Euro Currency Market: **15-18 L**

Foreign exchange market – functions and exchange rate determination, Exchange rate theories– Mint parity, Purchasing power parity (PPP), Monetary approach and Portfolio balance approach, Fixed and flexible exchange rates, Exchange controls and multiple exchange rates, Current exchange rate regime. Euro currency market.

Unit- V: Balance of payments: **15-18 L**

Balance of payments – accounting, components, causes of disequilibrium and Mechanism of adjustments – devaluation and Marshall - Lerner conditions, Elasticity and absorption approaches, External and internal balance, Foreign trade multiplier, Swan model.

Paper- 4.3: ECO-643: Economics of Development and Growth – II

Contact Hours/Week	: 04 Hours	Maximum Marks	: 100 Marks
Duration of Examination	: 03 Hours	Continuous Assessment	: 30 Marks
		Semester Assessment	: 70 Marks

Note: The syllabus is divided into five independent units and question paper will be divided into three sections:

- **Section-A** will carry 10 marks with 01 compulsory question comprising 10 short answer type questions (maximum 20 words answer) taking two questions from each unit. Each question shall be of one mark.
- **Section-B** will carry 25 marks with equally divided into five long answer type questions (answer about in 250 words). Paper setter shall be advised to set two questions from each unit and students are instructed to attempt five questions by selecting one question from each unit.
- **Section-C** will carry 35 marks with five long answer type questions comprising one compulsory question of 15 marks and four questions of 10 marks each. Students are instructed to attempt total three questions with one compulsory question (answer about in 500 words) and any two more questions (answer about in 400 words) out of remaining four questions. Paper setter shall be advised to design question paper covering from all five units.

Note: Contents of each unit may be completed into 15-18 lectures or contact hours which also include revisions, seminars, internal assessments, etc.

Unit- I: Economic growth and Structural change: 15-18 L

Economic growth and Structural change: Structural changes in the composition of gross domestic product, Occupational structure, Structure of capital accumulation and accumulation of human capital: Exploring the relationship between economic development and Income distribution (Kuznets inverted U - shaped curve and augmented Kuznets curve, Denison & Chenry empirical studies).

Unit- II: Theories of growth- I: 15-18 L

Theories of growth– Classical approach: Adam Smith, Marx and Schumpeter, Neo – Classical Approach: Robinson, Solow, Kaldor and Harrod – Domar model, Cambridge criticism of neo-classical analysis of growth, the capital controversy.

Unit- III: Theories of growth- II: 15-18 L

Technological progress – embodied and disembodied technical progress, Hicks, Harrod learning by doing, Production function approach to the economic growth, Growth models of Kaldor and Pasintti, Optimal saving and Ramsay’s rule of accumulation. Romar model of technological change.

Unit- IV: Endogenous Growth: 15-18 L

Endogenous growth; Intellectual capital, A-K model, Uzawa – Lucas model – Explanation of cross country differentials in economic growth. Economic isolation and integration with the global market. Living in a heterogeneous world, World-islands of prosperity and how the other three quarters live.

Unit- V: Functions of Market and State: 15-18 L

An overview of the economic functions of the market and state, Efficiency of the competitive market, Market failure, Government failure, On the choice of economic system, Market failure in a dynamic economy.

Elective Core Courses- D

The candidate is required to select any two elective course from the following:

(D-01): Economics of Infrastructure-II

Contact Hours/Week	: 04 Hours	Maximum Marks	: 100 Marks
Duration of Examination	: 03 Hours	Continuous Assessment	: 30 Marks
		Semester Assessment	: 70 Marks

Note: The syllabus is divided into five independent units and question paper will be divided into three sections:

- **Section-A** will carry 10 marks with 01 compulsory question comprising 10 short answer type questions (maximum 20 words answer) taking two questions from each unit. Each question shall be of one mark.
- **Section-B** will carry 25 marks with equally divided into five long answer type questions (answer about in 250 words). Paper setter shall be advised to set two questions from each unit and students are instructed to attempt five questions by selecting one question from each unit.
- **Section-C** will carry 35 marks with five long answer type questions comprising one compulsory question of 15 marks and four questions of 10 marks each. Students are instructed to attempt total three questions with one compulsory question (answer about in 500 words) and any two more questions (answer about in 400 words) out of remaining four questions. Paper setter shall be advised to design question paper covering from all five units.

Note: Contents of each unit may be completed into 15-18 lectures or contact hours which also include revisions, seminars, internal assessments, etc.

- Unit- I: Energy-I: 15-18L**
Primacy of energy in the process of economic development; Energy conservation: Renewable and non-conventional sources of energy; Effects of energy shortages; Factors determining demand for energy; Energy supply and pricing of electricity.
- Unit- II: Energy-II: 15-18 L**
The relative economics of thermal, hydel and nuclear power plants. Alternative energy sources– Wind energy, Solar energy and Bio-mass energy, The case for a National Power Grid. Energy policy in the India.
- Unit- III: Infrastructure Financing: 15-18 L**
Features and impediments of infrastructure financing. Sources of financing infrastructure project – Debt equity including public private partnership (PPP). Infrastructure financing institutions – Infrastructure finance company (IFC), Infrastructure development finance company (IDFC), India infrastructure finance company limited. Risk management.
- Unit- IV: Education and Economic Growth: 15-18 L**
Education and economic growth. Approaches to educational planning- Social demand, Rate of return and manpower planning approach. The case for universal, Free elementary education. Structure of higher education. Public and private financing of education. Human resources and human capital development. Education policy.
- Unit- V: Development of Social Services: 15-18 L**
Urban and rural water supply. Health and economic development. Health dimensions of development. Determinants of health- Poverty, Malnutrition, Illiteracy and lack of information. Economic dimensions of health care, Financing of health care. National health programmes.

(D-02): Environmental Economics- II

Contact Hours/Week	: 04 Hours	Maximum Marks	: 100 Marks
Duration of Examination	: 03 Hours	Continuous Assessment	: 30 Marks
		Semester Assessment	: 70 Marks

Note: The syllabus is divided into five independent units and question paper will be divided into three sections:

- **Section-A** will carry 10 marks with 01 compulsory question comprising 10 short answer type questions (maximum 20 words answer) taking two questions from each unit. Each question shall be of one mark.
- **Section-B** will carry 25 marks with equally divided into five long answer type questions (answer about in 250 words). Paper setter shall be advised to set two questions from each unit and students are instructed to attempt five questions by selecting one question from each unit.
- **Section-C** will carry 35 marks with five long answer type questions comprising one compulsory question of 15 marks and four questions of 10 marks each. Students are instructed to attempt total three questions with one compulsory question (answer about in 500 words) and any two more questions (answer about in 400 words) out of remaining four questions. Paper setter shall be advised to design question paper covering from all five units.

Note: Contents of each unit may be completed into 15-18 lectures or contact hours which also include revisions, seminars, internal assessments, etc.

Unit- I: Environmental Protection & Welfare Economics: 15-18 L

Social choice of optimum environmental protection: Individual preferences regarding Environment protection- Biocentrism. Sustainability, Anthropocentrism; Social choice from individual values. Welfare economics: efficiency and competitive markets. Problems of market failure: Public bads and externalities- Optimal provision of public goods and bads. Pricing public goods and bads.

Unit- II: Environmental Regulations: 15-18 L

Theory of environment regulation: Rationale for regulation, Price rationing, Pigovian taxes single and multiple Polluters, Subsidies for abatement of pollution in short and long run.

Unit- III: Property Rights: 15-18 L

Property rights: Coase theorem, Problems of public bads and bargaining, Policy significance of Coase Theorem, Common Property Resources and Tragedy of Commons. Command and Control, Economic Incentives; Tradable Pollution Permits.

Unit- IV: Regulation with unknown Control Cost: 15-18 L

Regulation with unknown control cost: Unknown polluter Characteristics [adverse selection problem], Unobserved control cost- emission fees or quantity regulation, Hybrid price- Quantity regulation, Obtaining Private control cost information, Enforcement, Dynamics and Commitment.

Unit- IV: Environmental Risk and uncertainty: 15-18 L

Environmental risk and uncertainty: Regulating risk with liability, Liability versus Direct regulation; Environmental risk and insurance; Moral hazard.

(D-03): Econometrics- II

Contact Hours/Week	: 04 Hours	Maximum Marks	: 100 Marks
Duration of Examination	: 03 Hours	Continuous Assessment	: 30 Marks

Semester Assessment : 70 Marks

Note: The syllabus is divided into five independent units and question paper will be divided into three sections:

- **Section-A** will carry 10 marks with 01 compulsory question comprising 10 short answer type questions (maximum 20 words answer) taking two questions from each unit. Each question shall be of one mark.
- **Section-B** will carry 25 marks with equally divided into five long answer type questions (answer about in 250 words). Paper setter shall be advised to set two questions from each unit and students are instructed to attempt five questions by selecting one question from each unit.
- **Section-C** will carry 35 marks with five long answer type questions comprising one compulsory question of 15 marks and four questions of 10 marks each. Students are instructed to attempt total three questions with one compulsory question (answer about in 500 words) and any two more questions (answer about in 400 words) out of remaining four questions. Paper setter shall be advised to design question paper covering from all five units.

Note: Contents of each unit may be completed into 15-18 lectures or contact hours which also include revisions, seminars, internal assessments, etc.

Unit- I: Simultaneous Equation Models: 15-18 L

Simultaneous equation models: The simultaneous equation bias and Inconsistency of OLS estimators, The identification problem; Rules of identification – order and rank conditions.

Unit- II: Methods of Estimating Simultaneous Equation System: 15-18 L

Recursive methods and OLS; Indirect least squares (ILS); 2SLS, K Class estimators, 3SLS and ML Methods – application.

Unit- III: Time Series Econometrics: 15-18 L

Time series econometrics: Key concepts, Spurious regression, Stationary stochastic processes, Non stationary processes, Unit root tests – Dickey- Fuller Test, Augmented Dickey Fuller Test, Phillips- Perron Test.

Unit- IV: Statistical Process and Software: 15-18 L

Properties of AR, MA and ARMA Processes. Cointegration and Error Correction Mechanism (ECM). Introduction to E-Views and SPSS software.

Unit- V: Panel Data: 15-18 L

Introduction to Panel Data: Panel Data with Fixed and Random Effects. Fixed Effects: Within and between group effects, Unbalanced panel and Fixed effects. Random effects: GLS, Testing for random effects, Estimation of dynamic panel model.

Note – Use of non-programmable calculator is permitted.

(C-04): Health Economics- II

Contact Hours/Week	: 04 Hours	Maximum Marks	: 100 Marks
Duration of Examination	: 03 Hours	Continuous Assessment	: 30 Marks
		Semester Assessment	: 70 Marks

Note: The syllabus is divided into five independent units and question paper will be divided into three sections:

- **Section-A** will carry 10 marks with 01 compulsory question comprising 10 short answer type questions (maximum 20 words answer) taking two questions from each unit. Each question shall be of one mark.
- **Section-B** will carry 25 marks with equally divided into five long answer type questions (answer about in 250 words). Paper setter shall be advised to set two questions from each unit and students are instructed to attempt five questions by selecting one question from each unit.
- **Section-C** will carry 35 marks with five long answer type questions comprising one compulsory question of 15 marks and four questions of 10 marks each. Students are instructed to attempt total three questions with one compulsory question (answer about in 500 words) and any two more questions (answer about in 400 words) out of remaining four questions. Paper setter shall be advised to design question paper covering from all five units.

Note: Contents of each unit may be completed into 15-18 lectures or contact hours which also include revisions, seminars, internal assessments, etc.

Unit- I: Health Financing:

15-18 L

Health financing: concept; National health accounting sources and uses of funds; Health budgeting. Health care financing system, Sources of health care spending. Three principles; Relationship of health spending with health transition, Demographic change and Epidemiological transition; its indicators; Out of pocket and catastrophic health care expenditure.

Unit- II: Health Inequalities, Health Risk & Insurance:

15-18 L

Health inequalities and its measurement; Determinants of health. Risk pooling: concept; Ways to pool revenues; level of risk pooling; General revenue based systems; Social health insurance; Community health insurance; Re-insurance; Private health insurance.

Unit- III: Resource Allocation:

15-18 L

Resource allocation: concept; Dimensions; Organization; Provider payment methods: Fees, Capitation, Salary and Plus bonus; Hospital payment method: Per admission; Diagnostic related grouping; Per-diem; Line-item budget; Global budget; Contracting: Effect of payment system on patients.

Unit- IV: Quality & Disability adjusted life years and Medical Tourism in India:

15-18 L

Quality adjusted life years and Disability adjusted life years: concept, computation, limitation and problems, Relationship between the two. Medical tourism in India; performance of India and Rajasthan on infant mortality rate(IMR), Under-five mortality rate, maternal mortality ratio, Life expectancy.

Unit- V: Structure, Conduct, Performance and Market Analysis:

15-18 L

Instrumental activities of Daily Living and Activities of Daily Living: Concept and scale; Government, health and medical care: Economic reasons and type of government intervention; Market failure in health sector: Concept, Reason and role of Government; National rural health mission; National urban health mission;

(D-05): Survey Methods

Contact Hours/Week	: 04 Hours	Maximum Marks	: 100 Marks
Duration of Examination	: 03 Hours	Continuous Assessment	: 30 Marks

Semester Assessment : 70 Marks

Note: The syllabus is divided into five independent units and question paper will be divided into three sections:

- **Section-A** will carry 10 marks with 01 compulsory question comprising 10 short answer type questions (maximum 20 words answer) taking two questions from each unit. Each question shall be of one mark.
- **Section-B** will carry 25 marks with equally divided into five long answer type questions (answer about in 250 words). Paper setter shall be advised to set two questions from each unit and students are instructed to attempt five questions by selecting one question from each unit.
- **Section-C** will carry 35 marks with five long answer type questions comprising one compulsory question of 15 marks and four questions of 10 marks each. Students are instructed to attempt total three questions with one compulsory question (answer about in 500 words) and any two more questions (answer about in 400 words) out of remaining four questions. Paper setter shall be advised to design question paper covering from all five units.

Note: Contents of each unit may be completed into 15-18 lectures or contact hours which also include revisions, seminars, internal assessments, etc.

Unit- I: Introduction to Sample Survey: **15-18 L**

Sample Methods: Principle of sample surveys, Stages of survey, Practical problems in planning execution and analysis of surveys, Random Number Tables and their uses in drawing samples with equal probability (Simple Random Sampling) and Probability proportional size.

Unit- II: Sampling: **15-18 L**

Sampling theory and sampling distribution; Sampling and Non – sampling errors. Critical study of sample design employed by NSSO and in Rural credit surveys.

Unit- III: Sample Designs: **15-18 L**

Sample Designs: Simple random sampling with and without replacement ; Relative Efficiency of WR and WOR stratified sampling proportional optimum and Neyman allocation. Gain in precision, Cluster Sampling. Two Stage Sampling. Systematic Sampling.

Unit- IV: Regression Analysis: **15-18 L**

Regression Analysis with one and two explanatory variables. Multiplicative and additive models. Growth equations. Estimation of regression parameters and their standard errors.

Unit- V: The Problem of Curve Fitting: **15-18 L**

The problem of curve fitting; fitting of linear, exponential and parabolic curves. Application in the estimation of elasticities and growth rates.

- **Section-C** will carry 35 marks with five long answer type questions comprising one compulsory question of 15 marks and four questions of 10 marks each. Students are instructed to attempt total three questions with one compulsory question (answer about in 500 words) and any two more questions (answer about in 400 words) out of remaining four questions. Paper setter shall be advised to design question paper covering from all five units.

Note: Contents of each unit may be completed into 15-18 lectures or contact hours which also include revisions, seminars, internal assessments, etc.

Unit- I: Introduction & Classical School: 15-18 L

Mercantilism Physiocrates, Quesnay's table economic concept of surplus growth, theory of taxation and role of government. Classical school: Adam Smith the invisible hand doctrine wealth of nation, laissez faire, profits and wages modern revival of Adam Smith; critiques of Adam Smith.

Unit- II: Theories of Malthus & Ricardo: 15-18 L

Malthus's theory of population and theory of under competition; Ricardo – principal of political economy and taxation distribution theory – different roots differences with say on determination of value modern revival and interpretation (Sraffa).

Unit- III: Critics of the Classical School & Other Thoughts: 15-18 L

Critics of the classical school – Sismondi socialist and the nationalist school position senior and the four postulates, J.S. Mill – four prepositions and capital demand and supply bifurcation wage fund. rehabilitation by coarseness stationery state version non – competing groups evaluation of socialist thought – Utopian socialism Saint – Simon, Own blane, Fourier proudhob scientific socialist.

Unit- IV: Karl- Marx & Neo Classical School: 15-18 L

Karl - Marx efforts at scientific socialism organic composition of capital break down of capitalism, reserve army labour critiques of Marx, Revival Marx in economics. The German historical school and development of marginalize the neo classical school Marshall.

Unit- V: 20th century economic thought & Indian Economic Thinkers: 15-18 L

20th century economic thought main features (Only the rise of key nesiaanism the rise of mathematical economics dynamics of econometrics) Critical evaluation of the development of economic thought; Indian economic thought Kautilya, Vinoba Bhawe, Dr. B.R. Ambedkar and Mahatma Gandhi.
