

UNIVERSITY OF KOTA

SCHEME OF EXAMINATION

AND

COURSES OF STUDY

Session- 2020-21

Department of Social Sciences

Faculty of Social Science

M.A./M.Sc. (Geography)

First & Second Semester Examination

UNIVERSITY OF KOTA

MBS Marg, Near Kabir Circle, KOTA (Rajasthan)-324 005

INDIA

M.A./M. Sc. Geography:

The M.A. /M. Sc. Geography is a two years full time course. The course has been organized in IV semesters over two years. That means two semesters per year.

A brief note on the Innovation and the Employability -

1. Now a days Geography has become a very useful subject in various competitive examinations including Civil services and Rajasthan Administrative Services.
2. Geography not only deals with the physical economic and social conditions of the World, India, Rajasthan but now its nature has become applied and it is helpful in solving the environmental and urban problems.
3. Geography provides a background for the regional planning in development and help in sustainable development.
4. The modern techniques of Geographical analysis such as Remote Sensing, GIS, GPS etc. are helpful in Resource and Environmental Management and Disaster Management.
5. Geography provide an opportunity of employment in various fields. The important are : Teaching and Research ;Town Planning Departments ; Regional Planning ; Remote Sensing ; Statistical Departments ;Urban / Rural / Agricultural Planning ; Water Resource Departments ; Demographic Study Departments & Administrative Services – Central and State Governments etc.

Eligibility Criteria – B.A. with Geography with 48% for general candidates, 55% for B.Sc. with Geography, minimum, pass marks for SC/ST/OBC/SOBC Candidates.

Scheme of Examination:

- 1.The course shall have 24 or 25 credits in one semester and 96 credits but not 100 in a complete 4 semester course. However the credits in a course shall be equal in each semester.
2. There shall be fixed 5 papers each of 100 marks in each semester comprising both theory & Practical papers. The Total marks for each semester shall be 500 marks.
3. The Total marks theory papers will be divided Into 70% external assessment and 30% internal Assessment marks .
4. There will be no internal assessment in practical papers .
5. Each paper shall divided into five units for question paper framing from examination point of view.
6. The assessment of the student for theory paper shall be divided into two parts in which first part is continuous assessment or internal (30% of maximum marks) and second part is semester assessment or external assessment (70% of maximum marks) for practical papers there will be only one external assessment(100% of maximum marks).
7. Following rules have been recommended for internal assessment:
 - (a)The internal assessment for each theory paper shall be taken by the teacher concerned in the department during each semester. There will be two internal assessment test paper/assignment or both each 15% weightage, For theory papers in each semester Each internal assessment test shall be of one hour duration for each semester Each internal assessment test shall be taken according to academic calendar notified by the university. There will be no internal examination in the practical paper.

(b) A student, who remains absent(defaulter) or fails or wants to improve the marks in the internal assessment , may be permitted to appear in the desired paper(s) (only one time) in the same semester with the permission of the concerned Head of the Department. A defaulter/improvement fee of Rupees 250/- per paper shall be charged from such candidates. Duly forwarded application of such candidates by the teacher concerned shall be submitted to HOD who may permit the candidate to appear in the internal assessment after depositing the defaulter improvement fee. A record of such candidates shall be kept in the Department.

8. Following rules are recommended for Semester Assessment or External Assessment:

(a) The external assessment shall be of three hours duration for each theory paper and five to ten hours duration for practical paper as per the requirement of the subject and courses of practical. The practical examination shall be taken by the panel of at least one external and one internal examiner at the end of each semester.

(b) The syllabus for each theory paper is divided into five independent units and theory question paper will be divided into three sections as mentioned below:

Section –A shall have 01 compulsory question comprising 10 question (maximum 20 words answer) taking two question from each unit. Each question shall be of one mark of this section will be 10. This section will be compulsory in the paper.

Section-B will carry 25 marks with equally divided in to five long answer type questions(answer about in 250 words)and examiner are advised to set two questions from each unit and students are instructed to attend five questions by selecting one question from each unit.

Section-3 will contain five long answer five long answer type questions. One compulsory question of 15 marks and four question of 10 marks each. students are instructed to attempt total three questions with one compulsory question(answer about in 500 words)of and any two more questions(answer about in 400 words)out of remaining four questions. paper setter shall be instructed to design question paper covering from all five units.

09. Minimum pass marks and Rules regarding Determination of result are recommended as follows:

(i)The candidate shall be declared as pass in a semester examination .if he/she secure at least 40% marks in each theory paper separately in external & internal examination and assignment assessment 50% marks in each practical paper and at least 50% marks in project/dissertation with 50% aggregate marks in that semester.

(ii)A candidate declared as fail/absent in one or more papers at any odd semester examination shall be permitted to take admission in the next higher semester (even semester)of the same academic session.

(iii)A candidate may be promoted in the next academic session(odd semester)if he/she has cleared collectively at least 50% of the paper of both semesters of previous academic session with 50% of the aggregate marks .The candidate who does not fulfil the above condition will remain as an ex-student and will reappear in the due papers along with the next odd/even semester exam.

(iv)If any student who is provisionally admitted in higher odd semester but could not secure prescribed minimum marks in previous semester will be treated as ex-student and his/her admission fee will be carry forwarded to the next odd semester of forth coming academic session.

(v) If a candidate, who is declared as pass, wishes to improve his/her performance in theory papers of previous semester, he/she may re-appear only one time in these papers in the next odd/even semester examination.

(vi) Candidate shall not be permitted to re-appear or improve the marks obtained in the external examination of practical/dissertation in any condition.

(vii) If the number of papers prescribed in a semester examination is an odd number, it shall be increased by one for the purpose of reckoning 50% of the papers for considering the student pass/fail.

(viii) A candidate may be given only two additional chances for passing a semester; thus, the maximum tenure for completing the two years postgraduate course will be limited to four years, for three years postgraduate programme up to five years and so on.

10. Classification of successful Candidates after Last semester Examination is recommended as follows:

Description of marks Obtained	Division/Result
• 80% and above marks in a paper	Distinction in that paper
• A candidate who has secured aggregate 60% and above marks	First Division
• A candidate who has secured aggregate 50% and above but less than 60% marks	Second division

Paper Scheme:

Year / Semester	Serial Number, Code & Nomenclature of Paper			Duration of Exam.	Teaching Hrs/Week & Credit			Distribution of Marks			Min. Pass Marks	
	Number	Code	Nomenclature		L	P	C	Conti. Asses. s.	Sem . Ass. ess.	Total Marks	Con ti. Ass. ess.	Se m. Ass. ess.
I Year Semester I	1.1	GEO 101	Evolution of Geographical Thought-Ancient	3 Hrs	4		4	30	70	100	12	28
	1.2	GEO 102	Advanced Economic Geography	3 Hrs	4		4	30	70	100	12	28

GEO-101	Evolution of Geographical Thought-Ancient
----------------	--

UNIT – I

Definitions, scope, nature and purpose of Geography, (including concepts) and its relation with other social sciences.

UNIT – II

Development of Geography in India, Pre-Scientific Geographical ideas in Ancient times in India, Ancient Classical Geography.

UNIT – III

Dark age, Brief Account of the Tools and techniques in Geography, Indian influences and Geography of the Vedic Age.

UNIT – IV

Main regions of geographical knowledge in ancient times, Contribution by Greek.

UNIT – V

Roman and Arab Geographers.

 11^प कौशिक, एस.डी. : भौगोलिक विचारधाराएँ एवं विधि तंत्र।
 12^प जैन, एस.एम. : भौगोलिक चिन्तन व विधि तंत्र, साहित्य भवन, आगरा।

GEO-102	Advanced Economic Geography
----------------	------------------------------------

Unit - I

Nature and Scope of Economic Geography, approaches and recent trends in economic geography, Spatial variation, location of economic activities and spatial organization of economies.

Unit – II

Classification of economies, sectors of economy: primary, secondary and tertiary, Transportation development and spatial impact, impact of Spatial variation in production costs: labour, capital, technical knowledge, location impact.

Unit – III

Types of agriculture: subsistence agriculture: Tropical plantations, Mixed farming ,Commercial grain farming and corn region of USA, Mediterranean agriculture.

Unit – IV

Impact of modern economy on environment, Concept of economic region- formation and types, Economic regions of India and regional development.

Unit – V

Study of Great Lake industrial region of USA , Study of Ruhr and Ukraine industrial regions, Study of industrial belts of Japan, World pattern of water transportation and trade.

GEO-103	Advanced Geomorphology
----------------	-------------------------------

UNIT – I

Geomorphology : Development of geomorphology, Fundamental concepts, Nature and Scope, Factors controlling landform development: Endogenetic and Exogenetic forces.

UNIT – II

Denudation process: Weathering and Erosion, Cycle of Erosion, Views of Davis and Penck, soil formation, Geosynclines, Folds and Faults, Mountain Building.

UNIT – III

Interior of the earth, volcano : types, world distribution and volcanic activities, earthquake: cause, effect and world distribution.

UNIT – IV

Concept of Geomorphic Cycle : Landforms associated with fluvial, glacial, arid, coastal and Karst topography.

UNIT – V

Isostasy, Continental Drift and Plate Tectonics, Environmental and Applied Geomorphology.

GEO-104	Advanced Geography of Environment
----------------	--

UNIT – I

Concept of environment, Nature and scope of the Geography of environment, Concept of ecology , eco-system-definition and elements.

UNIT – II

Energy flow in eco-system, Productivity in eco-system, Food Chain- Food Web, Types of eco-system.

UNIT – III

Man-environment relationships, Degradation and conservation of Environment, Development vis-a-vis ecological crisis. Perception of environment and its quality.

UNIT – IV

Environmental Pollution – Water, Air, Noise, Soil and Radio-activity, causes, impact and measures of control with Indian examples.

UNIT – V

Global Environmental Issues : Climate Change - Ozone depletion, Green House effect and Global warming, Desertification, Biodiversity.

Books Recommended :

1. Batel, B. (Ed.) – Management of Environment, Wiby Eastern Ltd., New Delhi, 1980.
2. Desh Bandhu (Ed.) – Environmental Management, Indian Environment Society, New Delhi.
3. Singh & Singh (Ed.) – Geography of Environment Concept, New Delhi.

13. एच.एम. सक्सेना – पर्यावरण एवं परिस्थितिकी भूगोल, राज. हिन्दी ग्रन्थ अकादमी
14. सक्सेना – पर्यावरण भूगोल, रावत पब्लिकेशन, जयपुर

GEO-105	Geography Practical
----------------	----------------------------

Surveying / laboratory Work: Total 100 Marks

- | | |
|---|----------|
| 1. Laboratory work test (3 hrs duration) | 40 Marks |
| 2. Record work & viva-voce(20+10) 2 hrs | 30 Marks |
| 3. Survey Project Report comp & viva voce (20+10) 2 hrs | 30 Marks |

Note: 16 hrs of teaching- practical be provided to students per week .

UNIT – I

Definition , Nature and scope of cartography , The Art and Science of Cartography, Maps: History of Maps, Materials, techniques, Types and Preparation of Maps.

UNIT – II

Scales; Types, Representation of Scales , Enlargement, Reduction of Maps, Data: Types: Primary-Secondary , representation of Bar Diagram, histograms, Frequency Polygon, Pie/Wheel Diagram.

UNIT – III

Geographical Maps-Diagrams : Isopleths, choropleth , chorochromatic , Population- Dot Map , Population Pyramid, Sten-de-Geers and Stilgen-Baurs-Method.

UNIT – IV

Three dimensional diagrams of economic and social data , Block Pile , Sphere ,Cube , Graphs: Simple Line Graph ,Polygraph , Climatograph , Hythergraph , Taylor's/Foster's Climograph.

UNIT – V

Survey Project Report: Student will prepare a project report based on geographical ,socio-economic and environmental aspects of his/her residential area with sample survey of 10 houses under the direction of the faculty member independently of 10 to 15 pages.

Note: Record work will comprise of a minimum of 15 exercises drawn on one fourth of a full drawing sheet File with analysis/ Explanations.

Books Recommended :

1. Robinson, A.H. et al – Elements of Geography, John Wiley and Sons, U.S.A. 1995.
2. Sarkar, A.K. – Practical Geography – A Systematic Approach, Oriental Longman, Calcutta, 1997.
3. Khan, Z.A. – Text Book of Practical Geography, Concept, New Delhi, 1998.
4. Monkhouse, E.J. & Wilkinson, H.R. – Maps and Diagrams, Methuen, London, 1994.
5. Singh, R.L. – Elements of Practical Geography, Kalyani Pub., New Delhi.
6. Steer, J.A. – Map Projections; University of London Press, London.
7. Lawrence, G.R.P. - Cartographic Methods, London, 1971.
8. Dickinson, G.C. – Statistical Mapping of Statistics, London.
9. जे.पी. शर्मा – प्रयोगात्मक भूगोल, रस्तोगी, मेरठ।
10. इन्द्रपाल एवं माथुर – मानचित्र प्रक्षेप, राज. हिन्दी ग्रन्थ अकादमी, जयपुर।

GEO-201	Evolution of Geographical Thought- classical & Modern
----------------	--

UNIT – I

Founders of modern Geography -Humboldt, Ritter, Ratzel, Richthofen, Hettner, Contribution of Vidal-de-la-Blache and Brunhes.

UNIT – II

Post War trends, Inter-disciplinary Trends, Recent trends in Geography.

UNIT – III

Dichotomies in Geography : Physical and Human Geography, Determinism and Possibalism, Regional and Systematic Geography, Qualitative and Quantitative Geography, Theoretical and Applied Geography.

UNIT – IV

Changing paradigms ; Positivism, Behaviourism, Humanistic geography, Functionalism and Idealism in Geography.

UNIT – V

The field of geography: its place in the classification of science, geography as a social science, and natural science. Definition, scope and functions of geography, Future of Geography.

Books Recommended :

1. Minshull, Roger : The Changing Nature of Geography.
2. Hartshorne, Richard : Perspectives on the Nature of Geography. The Association of American Geographers, Hutchinson University Library, London.
3. Dikshit, R.D. : Geographical Thought A Contextual History of Ideas, Prentice Hall of India Pvt.Ltd.

7. Harvey & Holly : Themes in Geographic Thought, Rawat Publications, Jaipur.
8. Husain, Majid : Evolution of Geographical Thought, Rawat Publications, Jaipur.
9. Haggett, P. – Geography : A Modern Synthesis, Harper International Ed.
10. हुसैन, माजिद : भागोलिक विचारधाराओं का इतिहास, रावत पब्लिकेशन्स, जयपुर।
11. कौशिक, एस.डी. : भौगोलिक विचारधारायें एवं विधि तंत्र।
12. जैन, एस.एम. : भौगोलिक चिन्तन व विधि तंत्र, साहित्य भवन, आगरा।

UNIT – I

Scope, approaches and trends in resource geography; resources: concepts and classification
Distribution, production and problems.

UNIT – II

Use, production and conservation of resources: iron ore and manganese, Conventional and Non-conventional Sources of Energy ,production and problems of conservation of coal, petroleum, Hydroelectricity, Solar and nuclear resources ,World Energy Crisis.

UNIT – III

Forest and water resources: distribution, utility, problems and conservation with spatial reference to India and Rajasthan.

UNIT – IV

Distribution, density and growth of human resources , Population-resource equilibrium, Problems of resource utilization and conservation of resources, Population-Resource regions of world.

UNIT – V

Locational analysis and spatial distribution of Iron and Steel, Cotton textile, Chemical, Paper and pulp industries , Development of marketing systems in the world and WTO.

- 18^ण पुरुषोत्तम जैन : आर्थिक भूगोल, रस्तोगी प्रकाशन, मेरठ।
- 19^ण सक्सेना, अग्रवाल एवं सक्सेना : आर्थिक भूगोल, राजस्थान हिन्दी ग्रंथ अकादमी, जयपुर-2010 ।

UNIT – I

Climatology : Composition and Structure of the Atmosphere, Insolation ; Heat budget of the earth, Distribution of temperature- vertical and horizontal, Atmospheric pressure and general circulation of winds, Monsoons and jet streams.

UNIT – II

Stability and instability of the atmosphere : Air-masses, Fronts, Temperate and Tropical cyclones, Types and distribution of precipitation.

UNIT – III

Classification of world climates : Kopen's and Thornthwaite's schemes , Hydrological Cycle , Climate change and Global warming.

UNIT – IV

Oceanography : Distribution of land and water, Origin of ocean basins- Major features of ocean basins , Study of Ocean Bottom relief of Indian, Atlantic and Pacific Oceans.

UNIT – V

Ocean deposits: Coral reefs, Temperature and Salinity of the Oceans, Ocean currents, waves and Tides, Impact of Humans on the marine environment.

UNIT – I

Effect of World and Indian Population growth on Environment , Resources and Ecological crisis, Environment and quality of life .

UNIT – II

Environmental Management–Approaches, Management of forest, soil, wildlife, energy and mineral resources, Disasters & their management.

UNIT – III

Industrialization - Urbanization- Globalization , and Environmental Impact Assessment , Conservation of natural resources.

UNIT – IV

Environment Awareness and Education , Environmental policies and programmes (international and national) , Environmental problems, planning and legislation in India.

UNIT – V

Concept of Development , Sustainable development: concept, Importance and requirement , Position and problems of Environment in India and Rajasthan.

Books Recommended :

1. Batel, B. (Ed.) – Management of Environment, Wiby Eastern Ltd., New Delhi, 1980.
2. Desh Bandhu (Ed.) – Environmental Management, Indian Environment Society, New Delhi.
3. Singh & Singh (Ed.) – Geography of Environment Concept, New Delhi.
4. Saxena, H.M. – Environmental Geography, Rawat Pub., Jaipur, 2005.
5. Savinder Singh – Geography of Environment, Allahabad.
6. Murdock, W. (Ed.)- Environment Resources, Pollution and Society, Sin over Association Inc.
7. Gupta & Gurjar - Sustainable Development, Rawat Pub., Jaipur.
8. Khan, M.Z.A.& Gangwale Sonal : Global Climate change, Rawat Publications, Jaipur, 2011
9. Strahler, A.N. – Geography and Man's Environment, John, Willey.
10. Khan, M.Z.A. & S.K. Agarwal – Environmental Geography, APH Publishing House, New Delhi,2004.
11. Centre for Science – The State of Indian Environment : A Citizen's Report 1982, Environment 1985, New Delhi.
12. Sharma B.L. & Puja Puar : Global Environmental Challenges, Rohini Books, Jaipur.
13. सविन्द्र सिंह – पर्यावरण भूगोल, इलाहाबाद।
14. वी.के. श्रीवास्तव : पर्यावरणीय, भूगोल एवं पारिस्थितिकी विकास, वसुन्धरा, गोरखपुर।
15. एच.एम. सक्सेना – पर्यावरण एवं परिस्थितिकी भूगोल, राज. हिन्दी ग्रन्थ अकादमी, जयपुर।
16. सक्सेना – पर्यावरण भूगोल, रावत पब्लिकेशन, जयपुर।

Surveying and laboratory Work: *Total 100 Marks*

- | | |
|---|----------------|
| 1. Laboratory work test (3 hrs duration), | 40 Marks |
| 2. Record work & viva-voce (20+10) 2 hrs, | 30 Marks |
| 3. Survey Project report camp & viva - voce (20+10) | 2 hrs 30 Marks |

UNIT – I

Map Projection and their classification –(Merits and Demerits)

Construction and characteristics of projections (Mathematical constructions)

Conical Projections :

- Equal Area with one Standard Parallel (Lambert's Projection)
- Equal Area with two Standard Parallel (Albert's Projection)
- Bonne's
- Polyconic

Cylindrical Projections :

- Cylindrical Equal Area
- Mercator's
- Gall's stereographic

UNIT – II

Zenithal Projection's

- Gnomonic Polar Case & Eq-case
- Stereographic Polar Case & Eq-case
- Orthographic Polar Case & Eq-case
- Equal Area Polar Case & Eq-case
- Equidistant Polar Case & Eq-case

Conventional Projections :

- Sinusoidal
- Mollweide

UNIT – III

Scheme of symbols , Conventional Symbols , Weather Symbols , Interpretation of Weather Maps and Indian Weather Report.

UNIT – IV

Computation of Mean, Median and Mode , Deviations : Standard Deviation and Mean Deviation , Correlation , Theoretical Basis of Nearest Neighbour Analysis.

UNIT – V

Survey Project Report : Report should be prepared for a topic related to any Local or regional problem. A report should be prepared in typed form within 15 to 20 pages with the help of maps and diagrams.

Note: Record work will comprise of a minimum of 15 exercises drawn on one fourth of a full drawing sheet File with analysis/ Explanations.

Books Recommended :
